

# PROSPERITY REIGNS IN U. S. INDUSTRIES!

## Coolidge Vaccinated Against Smallpox!

### FEAR SPREAD OF DISEASE IN NATIONAL CAPITAL

Thousands Of Government Employees Inoculated; 15 Deaths To Date

WASHINGTON, April 30.—President Coolidge has submitted to vaccination against smallpox because of the prevalence of the disease in Washington, it was learned today.

The affliction has cost fifteen lives here since January 1, and White House physicians finally prevailed upon the president to be inoculated as a precaution. At first White House physicians declined to comment on the vaccination report but later they admitted it was true.

Physicians previously inoculated a number of employees in the executive offices against the disease, and because President Coolidge comes in contact with so many people daily, it is understood the doctors advised him to be vaccinated as a precautionary measure.

Thousands Vaccinated  
Thousands of government employees have been vaccinated here in the past two weeks because of the spread of the disease. There are fifty-four cases in the city, according to the health authorities. Temporary vaccination booths have been operated in many government departments, including the veterans' bureau and the capitol.

The prevalence of the disease in Washington finally led Surgeon-General Hugh B. Cummings of the public health service, to issue an appeal to all the 65,000 government employees to be vaccinated.

### Posse Sights Kidnap Of 11-Year-Old Girl

GRANVILLE, Vt., April 30.—Citizens' posse hunting Earl Woodward, ex-convict, came upon the fugitive on a road in the East Brookfield woods this afternoon. Shots were fired but Woodward, carrying 11-year-old Lucille Chatterton in his arms, run to cover. Members of the posse said they thought one of the shots wounded Woodward.

The 400 men, including 150 armed cadets from Norwich university, engaged in hunting the ex-convict, were given orders to use every effort to take Woodward alive, in order to save the life of the child. When seen, Woodward was near the farm of Charles Howe, apparently in search of food. The Norwich cadets this afternoon were engaged in searching every building, shack and barn in West Brookfield.

### Arizona Officials Are Held In 'Dry' Charges

PHOENIX, Ariz., April 30.—Charged with possession of liquor, said to be found in their car at Nogales, Ariz., warrants for the arrest of H. S. McCluskey, secretary to Governor G. W. P. Hunt, and George Eberle, purchasing agent of the Arizona highway department, have been issued, according to United States Commissioner Edwin S. Jones. The warrants had not been served on either official at an early hour today.

### Death House Prisoner Tries To Cheat Chair

OSISING, N. Y., April 30.—The stocial John Farina planned by means of the bone handle of a toothbrush sharpened to a dagger-like point, to cheat the law, it was discerned by prison guards today when Farina and Morris and Joseph Diamond were removed to death cells to be electrocuted tonight for the murder of two Brooklyn bank messengers in 1923.

### TODAY'S GAMES

All major league games postponed; rain and cold.

### Field Marshal Accepts Vote To Presidency

BERLIN, April 30.—Field Marshal Paul von Hindenburg today accepted the verdict of the German republic, giving him a plurality of nearly a million in the presidential election Sunday.

"I accept the election," he wired the chief of the German election bureau, with characteristic promptness.

Wilhelm Marx, defeated candidate for president, today extended his promise of support to Hindenburg.

"The German people elected you. In conformity with true democracy all adherents of the constitution now should endorse the nation's constitutional majority," the former chancellor said in a letter to the president-elect.

"My desire is that the German people, under your presidency, find international rest, external peace, economic recovery and the healing of war wounds by the truly democratic spirit. "May the German people regain the world position which it deserves, due to its capabilities and achievements."

Marx will also ask his supporters to support Hindenburg.

### GOLD'S RETURN IN ENGLAND OPPOSED

New Budget Also Calls For Re-Imposed Luxury Tax And Navy Increase

LONDON, April 30.—The new Winston Churchill budget which provided for a return to the gold standard, an increase of \$25,000,000 for the navy and re-imposed the McKenna duties on luxuries, came in for more criticism today after harsh treatment in the night session of the House of Commons. Even Tory colleagues like Sir Robert Horne condemned the new provisions.

Horne's speech in Commons was prefaced by a word of praise for Churchill, but the text following contained carefully worded criticism, generally interpreted by the newspapers as indicating displeasure.

He devoted some time to Churchill's plan for pensions and said while the burden imposed on industry seemed small, "this is a time when even straws may break the camel's back."

Opponents of the measure in the press indicated their belief, however, that there was not the slightest chance for an upset and conceded that the budget would undoubtedly go through.

Lord Beaverbrook's Daily Express declared that Great Britain is now bound to support the foreign policy of the United States. If there should be war in the Pacific, the United States, by tightening the supply of gold, could force Great Britain to ally herself with the United States, the Express said.

### Doorman For Theatre Shot In Bold Holdup

KANSAS CITY, April 30.—Sam Raybourn, doorman at the Orpheum theatre, was shot and seriously wounded and a companion injured when they were held up near the theatre this morning and robbed of \$2500.

### Bible Reading Tabooed From Ohio Schools

COLUMBUS, O., April 30.—Declaring that religious teaching in Sunday schools and churches, by the good mothers, fathers and ministers of Ohio is much preferable to compulsory teaching of religion by the state, Governor Donahoe today vetoed the Buchanan bill, providing for compulsory Bible reading in the public schools.

### JUNE 16 DATE FOR VOTE ON MEMORIAL BUILDING

Propose To Hold Election On Same Day School Bonds Are Decided

Glendale will vote on Tuesday, June 16, on a proposed issue of \$150,000 in bonds for the erection of a patriotic and memorial hall.

At the same time it is likely that the proposed issue of about \$1,200,000 in elementary school bonds will also be voted upon.

Voters of the Verdugo Hills district, comprising about fifteen square miles, will also probably go to the polls on the same day to cast their ballots on the issue of annexing the section to the city of Glendale.

The City Council today set June 16 as the time for voting on the proposed \$150,000 bond issue, urged by the Patriotic and Memorial Hall association of Glendale, comprised of delegates from eleven patriotic and service organizations of the city.

Site for Building  
The building, plans for which were submitted to the council last week by Lyman P. Clark, spokesman for the organization, will be erected on a lot to be donated by the American Legion on the northeast corner of Mountain and Louise streets, if the bond issue is approved by the people.

The site, valued at \$25,000, consists of two acres of land. Resolution calling the bond election for June 16, was introduced today by Councilman C. E. Kimlin. He announced that the proposed elementary school bond election "will probably" be held at the same time, thereby reducing the election expense.

Annexation Election  
City Attorney Ray L. Morrow was instructed by the council this morning to draft an ordinance providing for an annexation election in the Verdugo Hills district. While no date for balloting was stipulated today councilmen said it is likely that it will be called also on June 16.

Petition for annexation, introduced a week ago, was signed by J. F. McClish and others.

Opposition to the annexation of the entire district to Glendale has developed in Tujunga. It was learned today when members of the board of trustees of that newly incorporated city called City Manager V. B. Stone by telephone during the council session, and urged that the portion of the territory lying closest to Tujunga be left out of the annexation proceedings.

City Attorney Morrow, however, announced that no change can be made on the petition or annexation proceeding.

### Shepherd Hit By New McClintock Evidence

CHICAGO, April 30.—The million dollar will of William M. McClintock giving the bulk of his fortune to his foster father, William D. Shepherd, was signed by Eva Nelson, one of the witnesses, in the laundry of Shepherd's home, with only Shepherd present, according to testimony given at the resumed inquest into young McClintock's death today.

John S. Walters, an attorney, was the witness who revealed this surprise testimony at the ninth and supposedly final session of the inquest into the death of the youth for whose murder by typhoid germs Shepherd faces trial May 18. Neither Shepherd nor his counsel was present at the inquest.

### Rain Delays Trip Of Balloon To Porto Rico

LAKEHURST, N. J., April 30.—The United States dirigible Los Angeles will not get away from Porto Rico until Saturday, it was indicated today. Rain was falling this morning and the dirigible was soaked. It will have to be dried out before the hop-off is made.

### Egerton Shore Resigns From State Rail Board

SACRAMENTO, April 30.—Egerton Shore, member of the State Railroad commission, resigned today to enter business in Los Angeles.

Governor Richardson announced he would appoint Shore's successor from Southern California. Shore's resignation is effective July 1.

Shore was a member of the State Board of Control during the administration of Governor W. D. Stephens.

"The railroad commission has been functioning so well the past few months I regret to have Mr. Shore resign," declared the governor. "I have two men in mind for the position."

### GERMANS SEE TAX BURDENS OLD POLICY FOLLOWED NOW FACING GERMANY

Ebert's Foreign Example To Be Objective Under New President

BULLETIN  
HANOVER, Germany, April 30.—President-elect Hindenburg's inauguration will be delayed until May 11, according to the field marshal himself and Reichstag President Loebe today. Loebe paid a visit to the marshal at his home here yesterday to discuss the inauguration.

BERLIN, April 30.—"Germany will go ahead in her foreign policy under Hindenburg just as she did under Ebert. Everything remains the same."

This expression of continuity of purpose in her relations with other nations furnished the keynote of today's press comment on Chancellor Luther's speech, sanctioned in a previous conference with President-elect Hindenburg. Comment today indicated the speech had a nation-wide soothing effect after the feverish excitement of the campaign and election. Even the nationalist organ Boersen Zeitung pointed out that the nationalists could expect nothing else.

Hindenburg Attitude  
Hindenburg is a man facing facts, not a man on the stage of sensations, the newspaper said.

The democratic papers viewed "continuity" ironically but showed a "continuity" around the realization that Hindenburg was a winner.

Minister of Finance Schlieffen's speech in the Reichstag today was expected to increase the soothing effect abroad of the chancellor's declaration, that the Dawes plan will be carried out even if it means the heaviest taxation of customs.

### START INVESTIGATION

LOS ANGELES, April 30.—Santa Fe railroad officials today began an investigation of the train wreck which occurred yesterday twenty miles north of San Diego, in which one person was killed and thirty-six injured.

### LATEST NEWS

MUSSOLINI FAVORS WOMAN SUFFRAGE  
ROME, April 30.—Premier Mussolini favored a bill providing for woman suffrage in the municipal elections, introduced today, but Fascists generally attacked it.

PORTUGAL DEPORTS STUDENTS  
LISBON, April 30.—The Portuguese government today deported a number of dangerous student agitators, members of the Red Legion, sending them from Lisbon aboard the cruiser Carval Horajo.

COMMUNISTS HERDED IN ROME  
ROME, April 30.—Police today arrested large numbers of Communists and Republicans all over Italy, charging they were preparing for May day demonstrations and strikes. The Epoca said a plot had been discovered in Rome. The fascist militia has been mobilized everywhere.

CUSTOMS GUARDS SEIZE OPIUM  
VANCOUVER, B. C., April 30.—With customs guards and searching parties still on board the Empress of Russia and scheduled to remain on the liner until she leaves Victoria outward bound, four seizures of opium totaling 469 tins, were made on the ship Wednesday, bringing the total number of tins taken off the boat since she docked from the Orient to 565.

### ELECTION OF HINDENBURG WORLD AID IS CLAIM

Dr. Henry R. Harrower Gives Views On Task Ahead Of German Leader

Germany and the world have gained an advantage in the election of Field Marshal von Hindenburg, declared Dr. Henry R. Harrower, founder of the Harrower laboratory, recently returned from Europe, today.

Von Hindenburg will be an advantage to Germany because he is a leader—a driver of men. His experiences against the Russians during the World War proved him not only a crafty leader, but likewise the stern military driver, something that will be a distinct advantage to Germany at present, Dr. Harrower said.

"The field marshal, 78 years of age, will prove a valued asset while his new broom is sweeping clean." By the time his effectiveness wears off, the tremendous duties as president will probably so have weakened his physical condition that he will be "ready to take up the work in greener fields beyond," continued Dr. Harrower.

Huge Task Ahead  
"The task that confronts the new German president is nothing short of tremendous. His experience as a fighter will stand him in good stead in the fight which he now has on his hands."

"Communism must be quashed in Germany if that nation is to succeed. This will be von Hindenburg's first and greatest task. It will be a long and relentless battle and one to which he may or may not be equal."

"Von Hindenburg has nothing to gain personally from the office of president of the German republic. In the past Germany's greatest drawback has been the 'crookedness' of its leaders. The men who have ruled the destinies of the republic since the war have conspired to beat the world and have succeeded in doing it. Having been found out, the nation must play straight now if it wishes to keep the good-will of the world."

Stole Money, Claim  
"I would tell any German that his government stole the money with which they paid war reparations. They stole this money from their own people. Do you want to know how?"

Here Dr. Harrower paused while he drew from an open drawer in his desk a large stack of German paper money.

"Here is how they did it," he continued, holding the worthless currency up to view. "It was just as much stealing for the German government to foist this money upon its people as it would be for me to write a check without sufficient funds to cover it."

Needs Iron Hand  
"With Von Hindenburg playing square with his people and with the world, his iron military driving ability will keep the nation 'toeing the mark' and will work out for the best interest of the world. Germany must toe the mark. An iron hand is necessary just as it is necessary in England and other countries."

"Not that Marx or some other leader would not have served Germany advantageously, had he been elected, but Von Hindenburg is tried and proven in the qualifications that a successful ruler of Germany must have right now."

### Governor Signs Four New Street Measures

SACRAMENTO, April 30.—Four measures designed to expedite city street improvements which were passed by the state legislature at the request of Los Angeles authorities, were signed today by Governor Richardson. The measures were Senate bills Nos. 407, 408, 409 and 410.

### SEEK SUSPECT

LOS ANGELES, April 30.—Police today were searching for C. Lomito, Filipino, as a murder suspect following the identification of a body found yesterday in the foothills near Uplands, close to the Los Angeles-Santa Barbara county line.

### Britain Ready To Quell Any May 1 Riots

LONDON, April 30.—Great Britain's calm on the eve of May day, with its perennial threat of Communist demonstrations, was evidenced in the House of Commons today.

Locker Lampson, under secretary for home affairs, in answer to questions in Commons, said:

"The situation is being carefully watched. All necessary steps are being taken to safeguard the interests of the country."

He had been asked whether the government would consider deportation of known Russian Communist plotters, in view of Communist activities. He was further questioned regarding the truth of various published alarmist and anti-Communist reports and said his department would answer the queries if made in the form of written questions.

### ALL EUROPE WAITING ON MAY DAY

Numerous Outbreaks Are Cause Of Heavy Guards To Protect Cabinet

By DAVID M. CHURCH  
For International News Service.

LONDON, April 30.—The approach of May day again brought tensely to conservative quarters today. Bulgaria's recent sanguine outbreak of Communists, which was still causing concern in Sofia, the round-up of radicals in Rome and the plot reported against Austen Chamberlain, British foreign secretary, furnished anti-Bolshevik newspapers with more than the usual material presaging May day danger.

Executives of Scotland Yard's secret service were taking the reported plot against Secretary Chamberlain seriously, it was learned today. Guards protecting all members of the cabinet were doubled, as further details of the plot were received from the Austrian government in Vienna.

An Exchange dispatch from Rome said the police believed they had discovered a general Communist plot in the round-up of more than 100 Communists. A dispatch from Riga said a bomb had been discovered on a railroad in what was believed to have been an attempt to wreck the train carrying the Estonian presidential party.

Sofia reported new skirmishes with the Communists in which artillery forces had been forced to shell the radicals in the outskirts of the Bulgarian capital. Warsaw reported Polish authorities had frustrated Bolshevik plots there.

### SIGNED BY GOVERNOR

SACRAMENTO, April 30.—Assemblyman Merriam's bill granting to the city of Long Beach all of right, title and interest of state in tidelands and submerged lands adjoining that city, was today signed by Governor Richardson. The bill provides the tidelands shall be used for park and playgrounds.

### U.S. to Appeal From Decision On Income Tax

SAN FRANCISCO, April 30.—United States Attorney Sterling D. Carr declared here today immediate steps would be taken to appeal from the decision of Federal Judge John S. Partridge that California wives have a half interest in their husband's incomes and husbands and wives may file separate income tax returns, dividing the family income.

Should the supreme court sustain the decision, made in the case known as the California community tax case, tax refunds totaling \$77,000,000 would be due Californians.

### SECRETARY OF LABOR TELLS OF BRIGHT OUTLOOK

Building Trades Facing Splendid Program, Is J. J. Davis' View

May day to Europe is a day of uncertainty and dread because of the traditional labor disturbances and clashes between classes. May day to American is just another date on the calendar. In the following article Secretary of Labor James Davis sums up the industrial situation.

By JAMES J. DAVIS  
Secretary of Labor. Written exclusively for International News Service. Copyright 1925

WASHINGTON, April 30.—There should be a great sense of satisfaction, especially in the industrial field, that "May day" this year presents no industrial disputes of serious concern in America.

While the department of labor has in hand for adjustment numerous trade disputes of more or less importance to certain localities, the industrial relations situation is very satisfactory as a whole. There appears to be a settled determination on the part of industry generally to make the present year a good business year.

It is true that in one of our great basic industries—bituminous coal mining—conditions are not at all what we wish, overdevelopment in this particular industry means over-production. Under the natural economic laws prospects for an increasing volume of business generally point toward a gradual improvement in this industry.

In the building trade industry a splendid constructive program is in prospect which in volume promises to equal if not exceed the vast amount of construction last year. The long term agreement contributes towards stabilization.

The prompt getting under way

### Oakland Jurist Turns Hobo to Study Life

OAKLAND, April 30.—The whereabouts of former Superior Judge Dudley Kinsell during the last four months was solved today when he returned to Oakland and announced that he had turned hobo and had crossed the continent as a "knight of the road."

Judge Kinsell, one of the best-known northern California jurists, resigned a year ago, leaving Oakland four months ago on his venture into the realms of "hoboemia" without taking anyone into his confidence. He explained today that his experience was planned on the spur of the moment as a health measure and to give him opportunity to study first-hand the lives of the "submerged tenth."

### Prince Of Wales Now Touring South Africa

CAPETOWN, South Africa, April 30.—The Prince of Wales arrived here today. He was formally welcomed by the Earl of Athlone, the governor-general and by the municipal authorities, with whom he had luncheon. A ball will be held in his honor tonight. Crowds poured into the city from the outlying districts. The prince was cheered as his automobile passed through the streets.

### Sofia Records Another Killing In Terrorism

SOFIA, April 30.—Gratchoff, a member of a gang of terrorists, was shot to death by police today. The police surrounded him and called on him to surrender, but he replied with pistol shots. The Agrarians executive committee today issued a manifesto denouncing the Kral cathedral outrage and the agrarian exiles implicated in the bombing.

### 'UNWRITTEN LAW' CASE

HANFORD, Cal., April 30.—The case of Louis A. Kinder, on trial for the murder of L. A. Broderick, prominent farmer, was expected to be in the hands of the jury late today. Kinder pleaded the "unwritten law" defense, claiming Broderick insulted Mrs. Kinder.

## MRS. HOWE IS SUMMONED BY DEATH

Large Circle Of Friends Mourn Over Passing Of Beloved Woman

Mrs. William A. Howe, wife of William A. Howe, manager of Glendale theatre, died at 5 o'clock Wednesday afternoon, April 29, 1923, at Pasadena. Hosts of friends in Pasadena and Glendale are saddened by her passing.

Ada Leach Goodno was born September 5, 1872, in Philadelphia, Pa. She came to Pasadena, Calif., June 23, 1911, and to Glendale June 3, 1920. Mr. and Mrs. Howe's home is at 317 Patterson avenue.

Possessed of personal beauty and charm, a lovable disposition and the faculty for winning admiration, Mrs. Howe had countless friends. The rich simplicity of her life inspired the high esteem in which she was held as devoted wife, mother, daughter and friend. Numbered among her friends are the employees at the Glendale theatre, all of whom knew her personally, admired her as a friend and join with Mr. Howe in his sorrow at her passing.

Funeral on Friday. Surviving Mrs. Howe are her husband, William A. Howe, her father, Dr. W. C. Goodno of Pasadena, and a son, William Hill of Glendale.

Funeral services will be held at 2 o'clock Friday afternoon in the Little Church of the Flowers, Forest Lawn Memorial park. Rev. Ernest E. Ford, pastor of First Baptist church, and a brother Rotarian of Mr. Howe, will officiate.

Pallbearers will be three members of the Rotary club, Val M. Hoffster, Ruie E. Downing, Clarence A. Kaighin, and three employees of Glendale theatre, James Richardson, Robert Soderstrom, Harold Sprague. Jewel City Undertaking Co. is in charge of arrangements.

## POISONOUS SNAKE BITE DISCOUNTED

Woman Hunter Laughs After Copperhead Sinks Fangs Into Her Finger

By EDNA MARSHALL  
Special Correspondent of The Glendale Evening News, Copyright, 1923.

NEW YORK, April 30.—The bite of a copperhead snake is no more dangerous than the scratch of a kitten, says Miss Nellie Louise Condon, who is nursing the finger in which a reptile fixed his fangs during a snake hunt last Sunday.

"Why, it was nothing," she said to the writer today, and got up to walk around her apartment to prove she's suffered no ill effects, except having to wear a piece of gauze around the finger.

Miss Condon was on a hike of the Reptile Study club of America, Inc., and was experimenting with a copperhead which had been captured, when the snake slipped from under the forked stick with which she held him, and bit her. But before five minutes had passed, a cash had been made, the poison sucked out, a wash of permanganate of potash applied—and all was well again, except for a short stop at a hospital where serum injections were given. Miss Condon laughs at those who say she had a narrow escape.

The only lesson of such an experience as hers, Miss Condon explained, had been in teaching people how little peril snakes have. Her particular snake, had he not been pinioned by a forked stick, would have glided away silently and happily, she said.

Best of sports. The most interesting experience of her life, Miss Condon calls it. She laughed as she told about the adventure, describing how she demonstrated that the snake, pinned down with a stick, would still attempt to bite by twisting its head sideways.

But the best part of the experience, she said, was the way people "kept their heads" and took her to the Good Samaritan hospital, at Suffern, N. Y., for final treatment. She enjoyed watching the doctors inject the serum into her veins. She revealed in the wistful way one man of the party hovered near, and finally, gaining courage, asked for the return of the shoe lace he had used as a tourniquet to prevent the poison from spreading through her system.

Snake hunting, she maintained, is the best of sports, because of the fact that a hunter does not have to kill his prey—but captures it for zoological study.

Kindness is the chief of Miss Condon's characteristics. She would not enjoy any hunt that meant killing animals, she said. Nor would she take people on any hunt that meant real danger.

## MEAT TRADE BETTER

CHICAGO, April 30.—Packers note a better tone in their trade though little actual improvement has developed. Consumption of beef is fairly good, with prices a trifle lower than a year ago. Prices in the pork trade have been stable, but people are said to have stopped buying cured pork all of a sudden.

Size 20x20; extra heavy and very absorbent.  
50c Boott Mills Laundry Bag, 25c  
Size 18x27, made of the ecru Boott Mills Toweling; very good size.

## ESCAPED FELONS TERRORIZE LAND

San Quentin "Lifers" Deeds Make Issue of Capital Punishment Problem

By BEN G. KLINE  
Special Correspondent of The Glendale Evening News, Copyright, 1923.

SAN FRANCISCO, April 30.—The excitement and terror spread by two escaped life-term convicts, Floyd Hall and Joseph Tanko, are making an issue of hesitancy to apply capital punishment in the Golden state. Inconsistency is seen in the fact that thousands were petitioning the governor to stay the execution of "Tufty" Reid, who was hanged for murder last week, while two desperate men who had escaped the gallows were terrorizing half the state.

The criminal records of Hall and Tanko go back to Colorado, where four years ago they were committed to the Buena Vista reformatory. Hardened youths then and inseparable companions, they escaped and worked their way as hoboes westward to San Francisco. For nearly a year they were a problem to the police here. They were traced through many automobile thefts and robberies, but for months escaped capture or identification. Finally Arthur G. Meehan, chief of police of San Bruno, hit a fresh trail and chased their stolen car with a motorcycle. He was

shot and his body, tangled in the motorcycle, was dragged for a long distance. The police here finally secured their identity and they were recognized when arrested in Los Angeles for vagrancy. Charged with the murder of Chief Meehan, they were convicted and sentenced to life imprisonment at San Quentin.

Escape From Prison. For a time they were given separate cells and separate work in the prison. Then they were permitted to be together. After serving two years they picked a prison lock and escaped with the aid of a prison-made rope.

That was three weeks ago. Their trail was soon found through robberies and shootings and they were traced to Sacramento. There one murder, an almost fatal shooting and several hold-ups are credited to them. They were identified and had narrow escapes at the state capital, but after a few days dropped from sight. For a week now dozens of alarms from all directions have proved false and a hundred or two man hunters—police, sheriffs and citizens—have been wearied by the fruitless pursuit. At present the whole citizenry from north of Sacramento to Los Angeles is alarmed. Ranches and homes are armed and vigilant.

"Should Have Hanged." "They should have been hanged for the cold blooded murder of Meehan," said Captain Duncan Matheson, chief of detectives here, to the writer. "Meehan left a wife and young child without provision when they shot him because they did not want to be tried for robbery." "There has been too much sentimentalism for murderers and not enough sympathy for the victims. They have an unfair

advantage over their pursuers because they are a hardened pair, armed and they don't value their own lives. They are adept at riding the rods and experienced in auto thefts. They stick together and have no gang in San Francisco. They know that every member of the force here knows them well by sight and I don't think they will come here unless they have to as a way of escape. But we have been on a close watch for them for two weeks and will get them if they show up here."

## 'PUFFED SUN MAIDS'

FRESNO, Calif., April 30.—The new product of the Sun Maid Raisin Growers' association, "puffed Sun Maids," is arousing wide interest as is shown by inquiries received here. At present the product is being packed only in 25-pound boxes for bakeries. Growers are guarding the process closely.

Oil from oil shale is marketed at a profit in Estonia.

A new law prohibits trading stamps in South Australia.

## Missionary Society Plans Rummage Sale

A rummage sale will be given Saturday, May 9, at the room formerly occupied by Roberts & Echols on East Broadway by the Women's Missionary society of First Methodist Episcopal church. Mrs. F. E. Laas has charge of the sale and proceeds will go for the building fund of the David and Margaret home at LaVerne.

### HOURS SPENT IN KITCHEN DISCUSSED

Reading Chapter On Home Work Reveals Unusual Facts In Glendale

Long hours of drudgery in the kitchen is not known to Glendale women, it was revealed yesterday at the Mutual Benefit Reading circle meeting at the public library, where the conclusion from opinions offered by the major portion of the fifty-nine women present is that Glendale women spend on an average of two hours in the morning in routine kitchen work, and one hour at evening dinner time. In explanation one prominent circle member said this average is reached in Glendale because so many Glendale men spend the entire day in Los Angeles, which eliminates noon meals in many homes.

The discussion arose from the circle study book, "The Home" by Charlotte Perkins Gilman, called by critics "A surgical operation on the popular mind."

**Opinions Differ**  
Mrs. H. V. Henry, circle chairman, read the chapter yesterday on "Home Cooking." In it the author states that nine-tenths of American women do their own work. She further declares that the average woman spends six hours daily in her kitchen, which was refuted by testimony of the women present yesterday, leading to the conclusion stated above. The author also declared herself as favoring the community kitchen as a great economic need in American life.

Annual "Baby Day" was celebrated by the circle yesterday. There were seven babies present, three of whom have been born during the year 1924-1925.

**Babies Present**  
These three babies are Rose Anne Reese, 3½-months-old daughter of Mrs. Reese; Mary Katherine Silliker, 5-months-old daughter of Mr. and Mrs. H. H. Silliker; and Dorothy Jean Weber, 9-months-old daughter of Mr. and Mrs. John Weber. Each of the mothers was presented with a copy of "The Child, His Nature and His Needs," compiled by M. V. O'Shea.

Mrs. Williams of the newly formed circle at Hermosa Beach, was a special guest. Mrs. Silliker told of her recent trip to Manhattan Beach to speak on circle organization. Mrs. E. B. Moore read the recent article "The Twins" by Fanny Kilbourne.

For luncheon many of the circle members enjoyed sandwiches and cake from the Wayside Inn, East Harvard and South Louise street.

### Victim Of Auto Crash To Be Buried Friday

Funeral services for Mrs. Nevada Young of Pasadena, who was killed in an automobile accident Tuesday, will be held tomorrow morning at 10:30 o'clock at the funeral parlor of Reynolds & Eberly Undertaking Co., corner of Fairbanks and Union avenues, Pasadena. Members of Lester Meyer Chapter, American War Mothers of Glendale, will attend. Mrs. Young was president of Pasadena Chapter of War Mothers.

Reports from Alhambra hospital today indicated Mrs. J. M. Cowlin of 346 Hawthorne street, Mrs. Susan P. Bradish of 911 East Lomita avenue, and Mrs. Emma Connors of Pasadena, injured in the same accident, are improving.

### DRAMA GROUP TO APPEAR TONIGHT

Students Of Glendale And Burbank Schools Will Compete On Plays

The sixth program of the Glendale district Eisteddfod will be held in the Glendale Intermediate school at 7:30 o'clock tonight, when Glendale and Burbank high school drama groups will appear in one-act plays and in scenes from Shakespeare. Baritone soloists also will compete. Mrs. H. C. Vandewater will preside, with Mrs. R. Ernest Tucker as chairman of the reception committee. She will be assisted by Mrs. H. J. Valentine, Mrs. G. U. Moyle and Mrs. Harold Brewster.

Judges for the drama work will be Ellis Read, who appeared in the part of "Peter" in the Pilgrimage play; Dr. Allison Gaw, of the University of Southern California; and Mrs. Margaret Barbrick Gillette, president of the Los Angeles chapter, Drama League of America.

The program will open with scene 2, from act 1 of "As You Like It," given by seven students of Glendale Union High school, directed by Harold Brewster. Four students of the Burbank High school, directed by Miss Katherine Allen, will then present scene 1, from act 4 of "As You Like It."

**Baritone Solos**  
The second competition will be in the baritone solo division, the contestants appearing in the following order: Glenn R. Dolberg, C. Clifford Riggs, Milford C. Jackson, Myron Carman, A. R. Burton. Each will sing one required and one selected number.

The high school students will then appear in one-act plays. "Not Much Help," an original play, written by Ralph L. Zink and directed by Doris Hutchinson of the Burbank High school, will be presented by Burbank students, with Miss Katherine Allen as supervisor. Glendale High school, directed by Harold Brewster, will present "Getting Off," by Edith Delano and David Carb. The program will close with an exhibition dance, "The Sailor's Hornpipe," by nine Burbank High school girls.

The program tomorrow will include solo and group numbers by students in private dancing schools of the district and exhibition musical numbers. It will open at 7:30 o'clock, in the Glendale Intermediate school.

### Christian Endeavorers Planning Church Party

A progressive party will be given tomorrow night by the senior intermediate Christian Endeavor society of Glendale Presbyterian church. The party will begin on the lower floor of the Sunday school building and proceed to the young people's room, thence to the tower room and finally to the intermediate room. The Sunday school building will be decorated with May flowers. Musical selections will be given.

### Local Women Attend Club Opening In L. A.

Mrs. J. H. Toal and Mrs. Paul E. Webb represented the Women's Athletic club of Glendale, yesterday at the opening of the new clubhouse of the Los Angeles Women's Athletic club.

### Talented Young Artist

JANE ADDIE PIERCEY, who will give three pianologues over KHD tonight. This little girl has originated a style of her own, her talent coming to light two years ago while she was practicing her piano lesson with her dolls as an audience.

"A funny crow sat on a limb And something funny tickled him—"

recited a little miss, 8 years old, to her dollies one day as she sat practicing her piano lesson, and as Old Jim Crow came flying across the piano keys to the notes of the music and words of the poetry, Jane Addie Piercey presented her first pianologue, an art that has won her much praise and many promising predictions for the future.

That was two years ago, and tonight Jane's many friends, near and far, are to hear her over the radio during the children's hour, 7:30 to 7:50 o'clock, from station KHD. She will give her own arrangement of "I've Got the Numps," author of the words unknown, music by N. Louise Wright; "The Runaway Boy," James Whitcomb Riley, music by Jane H. Rogers; "The Janitor's Child," author of the words unknown, music by Florence A. Goodrich.

**Develops Talent**  
Jane has been studying piano ever since she was 6 years old. On the day that her mother heard her reciting to her dolls, while practicing, they were wondering what Jane might give on the children's program at the Tuesday afternoon club of Glendale.

"Well, mother, I recited this 'Jim Crow' piece at a party the other day," said Jane, and it was then that the inspiration came for the pianologue work and Jane gave her own arrangement of "Jim Crow" and another poem, "Jimmy Jay," before the club.

Such was her success that her ability has been developed by piano study with Miss Alberta Green, and dramatic art work with Miss Anita Fletcher, both of Glendale. Poems by Riley, Robert Louis Stevenson and Eugene Field furnish much interesting material for Jane's programs. She is always on the alert for any catchy bit of verse that she can use.

**Born in Arizona**  
In addition to her piano and dramatic accomplishments, Jane possesses a voice of rich promise. As yet, however, her parents are not developing this talent, waiting until their daughter is at the age to begin the vocal work. Mrs. Piercey, whose family were all musical, is a great inspiration to Jane in her every endeavor. Jane is a native of Arizona, where she was born, in Phoenix. She and her parents have lived for several years at their present home, 626 North Isabel street, Glendale.

Although showered with praise from musicians and music lovers of prominence, Jane is a most unassuming little girl. She loves her studies in the A-5 grade at Doran school, and finds great fun in all the outdoor sports, particularly baseball, with the other youngsters.

A true artist, she loves to see her audience and see their response to her presentations, and of her debut in radio entertaining Jane says she is quite sure she will enjoy it, but only wishes that she might have all the thousands of listeners in right before her.

### Men's Club In Tropic Call Meet Tomorrow

The Men's club of Tropic Presbyterian church will meet tomorrow night at 8 o'clock at the church. James A. McLean, president of the club, will preside.

### AWARDS MADE IN PAINTING DIVISION

John W. Cotton Gets First Place; Work Of School Children Judged

John W. Cotton, Mrs. Emma Kraft and Mrs. Nell Walker Warner were awarded first, second and third places, respectively, in the oil painting competition in the art department of the Glendale district Eisteddfod, the winning paintings and the others entered being a part of the big Eisteddfod art exhibit, which is open to the public, free of charge, this week in the Fuller Paint Co. building, 219 North Brand boulevard.

Judges in this work were Charles L. A. Smith, Hanson Puthoff and Conrad Buff, well-known authorities in these lines. Winners in other divisions of the art competition will be announced later.

In the elementary school division the awards were made in the fourth, fifth and sixth grades as follows: Sixth grade, mechanical drawing, Robert Page, first, John Hartman, second and Ray Hartman, third. Sixth grade, water color, Beverly Rich, first, Thomas Long, second, Janice Redman, third. Sixth grade, sewing, Helen Clark, first, Gaby LeCrest, second, Grace Faulkner, third.

**For Other Grades**  
Fifth grade, arts and crafts, Robert Tisch, first, Margaret Dotson, second, Albert Emslie, third. Fifth grade, crayon, Albert Emslie, first, Elizabeth Conger, second, Elma Haby, third. Fourth grade, crayon, M. E. Kimball, first, Ruth Koenig, second, Milford Studer, third. Fourth grade, arts and crafts, Beryl Mitchell, first, Gerald Fagan, second, William Roberts, third.

Judges of elementary work were: Mrs. B. K. Smith, Lucy B. Jack, Grace C. Haynes, Morgan N. Smith, B. Woods, P. J. Ernzer, Charlotte L. Spier, Vera Olmstead Hamilton, Mrs. F. W. Parr, who officiated in art, manual training and sewing divisions. Awards in the seventh and eighth grades will be announced later.

### Missionary Society In Semi-Annual Meet

The following officers were elected yesterday at the semi-annual meeting of Glendale federation, Women's Missionary societies at Tropic Presbyterian church: Mrs. Z. L. Hesse, president; Mrs. R. D. Jones, first vice-president; Mrs. B. W. Geiger, second vice-president; Mrs. Rounds, corresponding secretary; Mrs. R. W. Motter, secretary and treasurer; Mrs. M. G. Musser, chairman of music, and Mrs. Hebert, chairman of devotionals. Mrs. Levi Chubbuck of First Congregational church conducted the devotional service during the morning. Mrs. B. B. Colburn, of First Congregational church, Eagle Rock, was speaker during the morning session.

Mrs. Winger sang with Mrs. R. D. Jones as accompanist. Rev. Maurice M. Johnson, pastor of Broadway Methodist church, South, was soloist. Devotional services were in charge of Rev. A. E. Cook, Mrs. W. J. Wanless, speaker during the afternoon, told of the medical and leper work in India.

### Presbyterians Set House Prayer Meets

Cottage prayer meetings of Glendale Presbyterian church will be held from 10 to 11 o'clock Friday morning at the homes of Mrs. Carder, 731½ East Palmer; Mrs. N. Tayburn, 1612 South Brand; Mrs. A. D. Smith, 630 North Howard street; Mrs. G. McDill, 1451 East Wilson avenue; Mrs. Krikman, 630 North Jackson street; Mrs. C. M. Stone, 618 East Chestnut street; Mrs. Fletcher, 332 North Isabel street; Mrs. Boettler, 313 West Broadway; Mrs. Howard Brown, 406 North Maryland avenue; Miss L. Stone, 402 East Harvard street.

### 'Y' Members To Spend Week-End At Ranch

Sixty Pioneer Y. M. C. A. boys with Rex C. Kelley, "Y" secretary, will spend Friday night and Saturday at the Perry Whiting ranch north of Glendale, returning Saturday.

corners to attract trade for these smaller places of business. Great credit goes to the department stores and larger advertisers who daily bring shoppers to Glendale's business district. And the small merchant should likewise advertise his specials in the columns of The Glendale Evening News to add pulling power to the other offers. That policy of "pull together" builds a city.

### YOUTH RIDING BICYCLE HIT BY AUTO

Woodrow Seidenglanz, 10, In Critical Condition As Result Of Accident

Woodrow Seidenglanz, 10, of 724 North Isabel street, was probably fatally injured last night when a bicycle he was riding was struck by an automobile at Kenneth road and Central avenue shortly before 8:30 o'clock last night.

Glen F. LaBelle, 1939 Glenoaks boulevard, driver of the machine, told police the accident was unavoidable. An investigation of the crash is under way.

The boy was rushed to the Windsor hospital, where it was reported this morning that he had regained consciousness; but is in a critical condition. He sustained a concussion of the brain and numerous other injuries.

The accident occurred at the upper corner of Central avenue, where it turns into Kenneth road and was partially caused by an obscured view.

### W. C. T. U. To Meet At Grigg Home Saturday

Glendale W. C. T. U. will meet tomorrow afternoon at 2 o'clock at the home of Mrs. Mary Grigg at 1137 San Rafael street. Mrs. S. E. Logie will conduct the devotional service and Mrs. C. W. Bacon, president, will preside. Members are given the following directions to locate the Grigg home: Take North Glendale Pacific Electric car to Dryden street and walk three blocks west to San Rafael, or take bus No. 2 west to Pacific and Dryden streets and walk one block east.

### L. A. Physician To Wed Daughter Of Doctor

Miss Ruth Allex Thorp of Los Angeles, daughter of Dr. and Mrs. T. Thorp of San Juan Batista, and Dr. Martin Bernard Graybill will be married at 8 o'clock tonight in the Little Church of the Flowers, Forest Lawn Memorial park. Dr. George B. Thomason will officiate. Miss Thorp is a nurse. Dr. Graybill is connected with the White Memorial hospital, Los Angeles.

### WINS SERVICE CLUB CONTEST AT SCHOOL

Kiwanians Take Second Place In Stunt Part of Eisteddfod Program as Local Organizations Appear

A den of lions roared its way to fame last night when "Doc" N. C. Paine, vice-president, and the Glendale Lions' club triumphed over other service clubs of the district in the Eisteddfod stunts staged at the Broadway High school. The Lions were judged best in the service club competitions because they scored highest in animated social spirit displayed during the singing of their songs. The Lions were grouped around the luncheon table with Dr. N. C. Paine presiding, in the absence from the city of W. B. Kelly, president.

They opened with the famous Lion "Food song" following the singing of "America." During their ten-minute stunt they also rendered their new Glendale booster song, to be sung at the San Diego Lions' convention, and "Roaring Lions," official anthem of the club.

The Lions were nattily attired in their service club caps and were grouped about a long dining table in regular service club fashion. When several of the clubs made "breaks," they were duly fined by "Doc" Paine.

**Kiwanis Second**  
Other service clubs that competed were the Kiwanis clubs of Glendale and Highland Park. Under the leadership of O. L. Andresen, the Glendale Kiwanians took second place with a score of 75 per cent, losing to the Lions by only one point. The Glendale Kiwanis sang "The Builders Song" and "Hail Kiwanis."

Highland Park Kiwanians, with a score of 70.8 per cent, came third. The Highland Park club also sang "Hail Kiwanis" and "Pussy Willow," led by H. L. Lewis.

Glendale Rotary club, scheduled to compete, took part in the service club event, but did not enter the contests because of deaths in families of several members. Paul Stillman, new president, appeared in behalf of the Rotary club.

**School Glee Clubs**  
Competitions of the service clubs, exhibition numbers by the Verdugo Hills Legion post quartet and a Grecian dance by Miss Evalyn Dawn Thomas of Eagle Rock, rounded out the second half of last night's program. The legionnaires sang a group of wartime songs including "Till We Meet Again," "When You Were a Tulip," "Let the Rest of the World Go By" and others. The quartet was composed of G. E. Kimball, R. B. Troutner, Benton J. Work and George Brown.

The first half of last night's program, devoted to elementary school competitions in vocal and instrumental music, drew the largest crowd of the Eisteddfod to date. The large Broadway High auditorium was packed almost to capacity during the events which included contests between the combined Glendale and Wilson Intermediate school orchestras and the Burbank elementary orchestra; and the Glendale and Wilson Intermediate boys' and girls' glee clubs.

**Burbank Winner**  
Hubert Snow White, director of music in the Burbank schools, demonstrated his ability as leader of amateur musical organizations for the second time during the Eisteddfod, when he led his elementary school orchestra to victory over the much larger combined Glendale orchestra. Mr. White won in the high school band competitions the opening night of the contests also.

On their rendition of "Here They Come" by Weidt, "Castle Chimes Gavotte" by Schubert and "Magic Fire Overture" by Wheeler, the Burbank orchestra was given a percentage by 85 by the adjudicators.

Playing "Stony Point March" by Laurendeau, "Celebrated Minuet" by Valensin and "Magic Fires Overture," the combined Glendale orchestras, under the direction of Miss Mildred Hughey and Mrs. Etta Rae Kent, were accredited an average of 71 per cent.

**Intermediate Schools**  
Wilson Intermediate school was victorious in both the boys' and girls' glee club numbers, although in both instances the competition was keen and the marks of the judges extremely close.

The Wilson girls' club sang "Linden Tree" by Schubert and "Pale Moon" by Logan. They were led by Mrs. Kent. The Glendale Intermediates also sang "Linden Tree" and gave "May Morning" by Denza for their second number. They were directed

## Daily Greeting to News Readers

**REAL POVERTY**—  
Is only a temporary interference for a boy with ambition. Brings a blessing that most of us are trying to escape. Never injures any one as much as envying another's wealth. Consists not of scarcity of things but a scarcity of ideas. Works its greatest injury after we become contented with it. Imposes fewer handicaps than unearned wealth. Is no cause for humiliation unless one is unwilling to work.

### THE INSECT AGE

Congress has appropriated more than \$800,000 for investigations of insect pests that attack agricultural products. Much of this is to be spent in California for investigation of diseases of trees and insects that attack trees. In Brooklyn \$170,000 is being spent to rid the borough of caterpillars.

The boll weevil, the corn borer, the wheat pest, the San Jose fruit scale all take their annual billion-dollar tolls. In a recent issue of Harpers, William Atherton DuPuy, Washington journalist, who is in close touch with experts of the Bureau of Entomology, suggests that man is losing his fight against the insect pests and that there is an insect age upon the way, just as there was once an age of reptiles, a glacial age, and now an age of man. In the fight against the insects, which he calls the thousand-year war, man is fighting a losing battle, and, though the average person is not conscious of the struggle at all, the issue is vital—the life or death of the human race.

To the average person this picture is overdrawn, yet the facts obtained from the federal and state bureaus of entomology show that the insect pests are gaining on man. Everyone knows how the boll weevil came across the Rio Grande, blighting the cotton as it came, and how every means to combat the enemy has failed. The boll weevil has cost America millions of dollars and her cotton dominance of the world.

The Japanese beetle brought to America ten years ago in some earth around an iris bulb has multiplied and is spreading rapidly. All attempts by the federal government to stop its progress has failed utterly. In 1889 a scientist, in an attempt to breed a harder silk-worm, imported some gypsy moths from Europe. These moths escaped and multiplied prodigiously. In a decade the caterpillars were eating the foliage from a large proportion of the trees in Massachusetts. For thirty years the fight against the gypsy moth has gone on and not a whit of progress has been made against him. When Taft was president of the United States, the emperor of Japan, in a friendly gesture to this country, made Mrs. Taft a present of some flowering cherry trees, which were planted in Washington, and have since become a source of beauty and national pride. However, America's peach crop is menaced annually by the peach moth which found its way to this country on these Japanese cherry trees.

How humbling to the pride of man to be allied against the insect and to know that he is fighting a losing battle. Yet Mr. DuPuy says that man is but a youth in the animal kingdom, while in coal beds that were laid down five million years ago are found the remains of cockroaches very much like those found in the pantries today. "How contemptuous of the upstart man must be this representative of an established order, of a family that has held its place through the ages," he says. "How the cockroach must scratch his wise old head and chuckle as he remembers the time when huge reptiles strutted the marshes and ruled the world; when marsupials, stupid grandfathers of the opossum, held sway; when mastodons but yesterday had their fling. And now this youngster! Wait and see!"

### MARKING HISTORIC SPOTS

While the daughters of the American Revolution have long known the importance of marking historic spots, and have been doing so for a great many years, they have lately undertaken this work on a larger scale, in an effort to catch up and unify all the points of American history and to give a panoramic record of it by means of marking spots where historic events took place. Chambers of Commerce and automobile clubs throughout the country will be asked to assist in the work.

It is the hope of the D. A. R. to have the route marked west through the trail taken by Washington in the French and Indian war, linking up with the historic sites in Ohio and Indiana, thence over the path of Lewis and Clark, the covered wagon and the Santa Fe Trail, making visible and easy to read the outline of our history and the migrations of the American people.

Just now there is a tendency to forget and make light of the valor of those who in past years conquered the wilderness or fought the battles of the Republic. There is no more important work than that of commemorating the lives and work of the men of the revolution and those who pioneered westward. Progressive as we think we are, we can learn many lessons from our forefathers and, unless we acquaint our children with the valorous deeds of those who have gone before, they cannot have a proper appreciation of their country and their responsibility as citizens. Bringing the facts of American history to the people will help to overcome the lassitude and lethargy that possess us on election day.

### MEDICAL PROGRESS

Physicians of today, the reputable M. D.'s, have no very easy time of it. They are under fire from so many different quarters. But, according to the American Medical Journal, irresponsible newspapers which publish unauthenticated stories of new discoveries and cures for cancer, tuberculosis, pneumonia and so forth, are the bane of the physicians' existence, because they hold out false hopes to suffering humanity and thus react unfavorably upon the doctor.

Any real progress in medical science is the best kind of news, the kind that is eagerly welcomed by the public and gladly printed by the reputable newspaper when it comes from the proper authority.

### WOMEN STUDENTS AND SMOKING

The authorities of Vassar college complain that the school has been receiving undue and undesired publicity in the matter of the number of students who indulge in smoking. The subject has been over-emphasized and, on the whole, smoking is no problem at all in the management of the college, they say. The official publication of Vassar reports that no marked change has taken place in the student attitude in recent years. The self-governing body has made a stringent rule against smoking either on or off the campus, and only twenty cases of violation of the rule are reported for the current year.

Likewise western universities have reported that the smoke problem among the women students is so minor a matter that they do not take the trouble to collect statistics on it.

The love of money is also the root of all industry.

## SPRING PLANTING IN BULGARIA

## The Popularity of Coolidge

By DR. FRANK CRANE

Most presidents are unpopular in Washington. To this Mr. Coolidge is no exception. The things which make him popular with the rest of the country do not increase his vogue in the city in which he lives.

The trouble is that Washington likes spending money, which helps the shopkeepers, and attracting a crowd, which helps the hotel keepers, and booming real estate, which helps the land dealers. Mr. Coolidge is opposed to all these things. He is in favor of cutting down payrolls, his actions do not please real estate dealers, and the simplicity of his inauguration did not please the hotel keepers.

The trouble is that Washington likes a good spender and the rest of the country likes a good saver.

They have made a good deal of fun of Coolidge's riding an artificial horse, and Will Rogers is responsible for the joke that he likes it because it does not eat any oats.

The plain people of the country, however, like Mr. Coolidge and his economies. They have an idea that a president should do pretty much as he pleases so long as he does not interfere with anybody else.

The reputation for being a mean man or a close man does Mr. Coolidge no more harm than it does a bank clerk. People do not want a live wire, a

good talker and a good spender for the president of their bank. They want their money kept by a man that is close and inclined to be extra cautious. By the same token we would like our country run by a man who has a reputation for economy and smallness rather than by a man who is a good fellow and a good mixer.

It may take a lot of handshaking and baby kissing to get elected to the office of president, but once in that office a man finds that his efficiency depends upon quite other things.

The Nashville Tennessean as quoted in The Literary Digest, says aptly:

"No public man of his times has evinced a clearer realization of the imperative need of retrenchment in governmental expenditures; and no man of his day has displayed a surer and more steadfast courage in demanding that governmental administration and conduct respect that need. He has sounded a note of protest, of warning, against all government waste throughout the country. No man knows better than he the enormous drain of government upon the energies and resources of the people. There has come about a saturnalia of taxation. The average American hands over the result of one day's labor each week to government, federal, state and local."

## The Best of Advice

By CLARK KINNAIRD

After all, there is no such thing as an uneducated person. Man begins to learn the minute he enters the world. There is never a more apt truism than "Experience is the best teacher."

Experience is a process that continues to give us new material to digest. We handle this intellectually by the mass of beliefs of which we find ourselves already possessed, assimilating, rejecting, or arranging in different degrees. Some of the apperceiving ideas are common-sense traditions of the race.

CLARK KINNAIRD

William James has pointed out that there is probably not a common-sense tradition, of all those which we now live by, that was not in the first instance a genuine discovery, an inductive generalization like those more recent ones of the atom, of inertia, or of fitness to survive.

"The notions of one time and of one space as single continuous receptacles; the distinction between thoughts and things, matter and mind; between permanent subjects and changing attributes; the conception of classes with sub-classes within them; the separation of the fortuitous from the regularly caused connections; surely all of these were once definite conquests made at historic dates by our ancestors in their attempts to get the chaos of their crude individual experience into a more shareable and manageable shape."

"They proved of such sovereign use as denkmittel that they are now a part of the very structure of our mind. We cannot play fast and loose with them. No experience can upset them. On the contrary, they apperceive every experience and assign it to its place."

To what effect? That we may the better foresee the course of our experiences, communicate with one another and steer our lives by rule.

James suggests that the greatest common-sense achievement, after the discovery of one time and one space, is probably the concept of permanently existing things.

When a rattle first drops out of the hands of a baby, he does not see what it has done. Non-perception he accepts as annihilation until he finds a better belief. That our perceptions mean beliefs, that they are not, whether we hold them or not, becomes an interpretation so luminous of what happens to us, that once employed, never gets forgotten.

## Who's Who

The recipient of the Roosevelt medal for his distinguished services in the promotion of outdoor life is George Bird Grinnell, editor, author, naturalist, and big-game hunter, who for fifty years has been a leader in the movement to establish and safeguard extensive and picturesque regions for the use of the American people as national parks. With conspicuous success he opposed the effort to commercialize the Yellowstone park; subsequently he secured an adequate government for the park and had it set aside as a game reserve. He secured the prohibition of the sale of game and it was under his direction that the first Audubon society was organized. He originally conceived the Glacier National park, and its definite establishment after nineteen years was due largely to his efforts.

"Mr. Grinnell, perhaps more than any other living man," writes Madison Grant in a government pamphlet on the "History of the Glacier National Park," "represents the now disappearing class of educated easterners who went to the frontier of the great west. From the year 1870 he has freely given his time, his money, his scientific and literary attainments and his talents to the cause of the preservation of the forests, the wild life of the country and, above all, the welfare of the Indians of the west."

"Mr. Grinnell was a founder of the Boone and Crockett club, an organization of sportsmen and game conservationists, of which he is now the president, and, with Theodore Roosevelt, edited its early publications. He is the author of numerous books about the Indians and is regarded as the greatest living authority on the Plains Indians, especially the Blackfeet and Cheyennes. He was the naturalist with Custer's expedition to the Black Hills in 1874. As editor of Forest and Stream for thirty-five years he has been profoundly influential in developing an appreciation of outdoor life and of the beauty and charm of the American wilderness."

Mr. Grinnell is the author of "Pawnee Hero Stories and Folk Tales," "Blackfoot Lodge Tales," "The Story of the Indian," "Jack, the Young Ranchman," and other books. He was commissioner to treat with the Blackfoot and Fort Belknap Indians in 1895. He is now 75.

Deer keep their heads in the ground while they are eating.

# AUTOMOBILE SECTION

GLENDALE, LOS ANGELES COUNTY, CALIFORNIA, THURSDAY, APRIL 30, 1925

## RIDE IN OPEN HINT DROPPED ADVISED BY ON VACATION PHYSICIAN OUTINGS

Health Commissioner Says  
Fresh Air On Highway  
Works Wonders

By HERMAN N. BUNDESON  
Commissioner of Health, Chicago  
Paraphrasing St. Paul: "Stop taking stuffy air, only open your motor car windows and take plenty of fresh air, for your health's sake."

You'll find fresh air and sunshine on the highway, to health. An excellent way to improve the health of mind and body is to ride out in the open air. In the spring time, the world is a happy place to live in and there are many pleasant things to see along the great highway of health.

Fresh air is a stimulating agent which helps to keep us fit, and taken together with sunshine it is a true tonic, benefiting both the well and the ill. Every person is entitled to a place in the sun; it is here for the taking.

Pure air promotes physical and mental perfection. Breathing deeply helps to prevent an accumulation of fat, quickens the digestive processes and aids in ridding the body of poisonous waste products.

**Need of Fresh Air**  
We need fresh, pure air all of the time, sleeping or walking, resting or working, sick or well; our supply of fresh air never should be curtailed, either in quality or quantity.

Nothing can compare with a ride in an open vehicle out along sunny parks and into the countryside. There is gaiety in the skies and health in the woodlands. With each draught of fresh air, there comes new courage and greater effectiveness in meeting the problems of working and living.

Let us partake of the fresh air and sunshine in abundance. These life-giving elements will clear up that old winter cold and cough and bring red blood again to the veins.

Let us ride in the open, in a frame of mind to enjoy; dust off the cobwebs of every day life and as we ride, let us not only look, but see, noticing renewal of life in its many forms and manifestations.

### RADIATOR HINTS

It's surprising what can be done with a damaged radiator. Seldom is it necessary to replace the complete radiator. In most cases the shell and tank can be fixed up and a lot of money saved. Car owners should not even consider buying a complete new radiator until they have consulted a radiator doctor or specialist as to what can be done for them. In most cases all that is required is a new core. Obviously this will save the car owner a lot of money.

New Road Opened To Balboa  
Expected To Attract  
Many Motorists

Now that the warm days have revived memories of last year's pleasant outings, some are digging out the bathing suit while others go over the fishing tackle, polishing up rods and reels and seeing that the hook-book contains the proper assortment of hooks, and lines are in good condition.

A new road has just been opened to one of the Southland's most popular resorts—Balboa. It is possible to drive from Long Beach to Balboa, miles along the sea. This, over roads in fine condition, but for a very short fall at Seal Beach, every foot is paved and most of it new road, opening to all a choice of his particular sport.

**Fishing Prospects**  
During the past few weeks, good catches of spotfin croaker have been taken from Newport bay. To take a nine-pound croaker on light tackle is the writer's idea of real sport, and this is waiting for you Mr. Motorist.

Fishing at Huntington Beach has been good, yellow fin, spot fin and corbina making their appearance. Drive over the new road soon, for summer is approaching and you will be thinking of your mountain trip.

Thousands of insurance agents over the state, representatives of the National Automobile club, are reporting road conditions for your benefit and it goes without saying that your agent has a hobby. Ask him where he goes fishing, bathing, or golfing and you are sure to get reliable information impossible to give through any printed medium.

**Auto Title Law Holds  
Generally On Pacific**

At the present time the only states in the Pacific coast region not possessing state title laws are Washington, Idaho and Nevada. According to the report from the National Automobile club, a certificate of title bill has been introduced in the state of Washington and will be considered at the November session of the state Legislature. The state of Nevada has signified its intention to install an engine file which will be helpful in clearing up theft conditions in that state.

**TOWLINE HINT**  
You may never need it but a good plan is to carry a towline in your car. They do not cost much and they may be valuable to you.

Miles of rope are used in big theatres to shift scenery.

## Fishing Season Will Open Friday

Followers of Isaak Walton will find much of interest in these photographs from Lake Arrowhead and Big Bear, where there are more trout this year than ever before, according to reports of fish commission employees.

Thousands of Anglers Are Expected At Lake Arrowhead and Big Bear As Trout Reported Plentiful

The fishing season is here and anglers locally will find excuses to get away for the opening day just as the office boy uses the age-old excuse of grandmother's funeral on the opening of the baseball season.

Thousands of anglers have been looking forward to the first of May with joyful anticipation. It gets in the blood and a trip into the mountains is a wonderful tonic not only to the anglers but to the vacationist as well.

Experts have made several trips recently into the San Bernardino mountains visiting all the famous fishing localities. Their report is that fishing positively will be better than ever this year. Lake Arrowhead and Big Bear lake will open the season with parties from every section of the southland. Mountain highways are in splendid condition. Road crews have worked overtime to get the roads ready for the anglers.

Recently thousands of trout, many of them running to 23 inches in length, were noted at both Big Bear and Lake Arrowhead. The trout were leaving the lakes for the strenuous trip upstream for spawning. It was a wonderful sight that was provided under the watchful eyes of numerous fish and game commission employees. These men assert that there are more trout in the lakes and streams this year than in many years due to the careful distribution of trout each year.

A score of streams in the San Bernardino mountains will attract the anglers for those who like stream fishing. Representatives of both Lake Arrowhead and Big Bear lake assert that the opening day will find the greatest number of anglers in the mountains in the history of the southland. It really marks the opening of the mountain season and from now on there will be a steady trek of anglers into the great Rim of the World regions.

## VARIETY OF BODY TYPES TO CHOOSE

Oakland Factories Produce  
Nine Models To Satisfy  
Every Taste

"In presenting models in nine different types, the Oakland Motor Car Co. has a most complete variety of body styles, calculated to satisfy the demands of every taste and for every purpose," said John Neuschaefer, Oakland dealer at 420 East Colorado street.

"Two new models have only recently been introduced. They are the coach, a closed body type, sturdily and substantially built, yet priced with a surprisingly low differential over the open types; and the Landau sedan, luxurious in appointments and equipment, with a custom-built smartness and finish found only in higher-priced cars.

"These two new types, with the standard sedan, the four-passenger coupe and the Landau coupe, make up the closed car line. In the open models are presented the touring, special touring, roadster and special roadster. The nine models offer a range and variety of cars that in body style, finish, equipment and seating capacity, fit into every need of both business and social life.

**Bodies By Fisher**  
"All bodies are Fisher built, with the advanced design, beauty and refinements in coach craft which characterize the products of this master coach-building firm. "The closed bodies combine graceful outward appearance with an abundance of room inside and complete provision for the comfort of passengers on the longest as well as the short journeys. Dome lights, mechanical window lifters, rear-view mirrors and automatic windshield cleaners are instances of the complete appointments. Heaters, and snubbers on front springs, are standard equipment on the sedan, Landau sedan and both coupe models."

### TIRE PHILOSOPHY

Use the oldest tires on the right hand side of the car when driving extensively in the city. On a tour use the oldest tires on the left hand side. In the city the tires are often damaged through striking the curb in turning corners or in parking. On the tour the tires on the left side of the car have the easier part.

Motorcycle broad-jump is a new and thrilling police test.

## 13 Billion Gallons of Gas Used In Year

CHICAGO, April 30.—Demand for gasoline this summer will reach the rate of 13,000,000,000 gallons annually, according to the rate of increase that has been maintained for the past six years, it was declared by DeWitt Foster, economic authority, in an address here.

"Rate of gasoline consumption in the United States has increased 133 per cent since 1918," said Mr. Foster. "Difference between summer and winter consumption of gasoline has never been less than 60 per cent at the widest point of difference in the past six years. Average difference between the crest of gasoline wave in summer and the trough at the low point in winter is 80 per cent for the six-year period."

## REO CAR AFFORDS SURE PROTECTION

Glendale Motors Co. Shows  
How Thieves Balked  
In Plying Trade

Owners of Reo cars, to a greater extent than any other owners, are afforded protection for the ravages of thieves, say officials of the Reo Glendale Motors Co., 126 South Orange street. This is true, not only because of the very effective transmission lock that is standard on all Reo passenger cars, models, but also because of Reo's exceptionally complete system of cross-filing various parts numbers of every car made.

With this system it is possible to tell almost immediately from the number of any major part just what car the part originally belonged to. In the same way, if a Reo is torn down and its parts distributed among several rebuilt cars, the exact car to which each part originally belonged can be definitely ascertained. Obviously such a situation presents a complication capable of stumping the cleverest ring of automobile thieves.

Whooping cough causes 6,000 deaths a year in the United States.

## FOUR-DOOR PAIGE GOES ON MARKET

Glendale Dealer Now Shows  
Brougham Costing Only  
\$30 More Than Open

The Paige-Detroit Motor Car Co. has announced for distribution a new standard four-door brougham in the Paige Six line at only \$30 more than the open-car price.

According to D. R. Tompkins, 219 West Colorado street, Glendale dealer, this sensational price in the quality car field is made possible on this model by the popularity of the brougham. Since January 1 the brougham has been offered in the de luxe mode. As sales have now reached the highest point in the history of the company for this type of Paige Six, the officials of the company have found it possible through the manufacture of such a large volume of one model to offer to the public a new standard brougham at this greatly-reduced price.

### ABOUT BRAKES

Brakes are much more likely to lock the wheels when the streets are wet; first, because of the decreased resistance to the brakes caused by lessened tire traction; second, because the brakes are more effective when the linings are damp. It is well to remember that brakes have always been inclined to be more conducive of skidding under the very conditions when skidding is most dangerous.

Austria plans to electrify more of its Federal Railway lines.

## STUDEBAKER SIX COACH ON MARKET

Packer Motor Co. Receives  
Consignment Of New  
Special Design

An announcement from Studebaker that will occasion keen interest in local motor circles is the news of the introduction of the new Studebaker special six coach. According to S. C. Packer, president of the Packer Motor Co., Inc., 245 South Brand boulevard, local distributors, the new coach is mounted on the regular special six chassis. The lower section of the body is lacquered in Wyandotte green, in contrast with its satin-black top and black wheels, fenders and runninggear. The body is full steel paneled—a product of Studebaker's 10,000,000 body plants, where all Studebaker bodies are built.

**Five-Passenger Type**  
The special six coach, which accommodates five passengers, is upholstered in the new fabric woven from mohair and wool—selected for the beauty of its walnut-brown coloring and for its long-wearing qualities.

Throughout the whole car, the customary high quality Studebaker construction prevails. The runningboard mats are of pure rubber, vulcanized to steel plates and then bound by aluminum. Beauty of line, visible strength and power, dignity of coloring and fine appearance—this is the superlative, the Studebaker special six coach.

### TIRE SALE JUMPS

AKRON, April 30.—Improved weather for motoring has spurred tire sales, according to manufacturers here. Most Akron plants are running close to capacity.

## SOUTHLAND IS VEHICLE BILLS ADVISED TO PREPARED BY 'FUSS UP' AUTO CLUB

Auto Club Points Advantage  
Of Anticipating Visit  
Of Eastern Tourist

"Fuss up a bit, company's coming." This is a bit of homely advice being broadcast by the Automobile Club of Southern California to all live-wire communities in this section of the state. The warning is inspired by indications of the greatest influx of tourists Southern California ever has known.

The big motoring organization is not "shooting in the dark," as it were, for it bases its predictions on the activities of its touring bureau for the first three months of the year. These show that there were 33,050 inquiries from the east regarding motor tours in this section. There were 234,600 telephone calls, 414,413 personal calls, and as indication that vast numbers of motorists are planning to see Southern California, the distribution of maps for the first three months of this year reached the record-breaking total of more than 3,000,000, or an average of over a million a month.

**Tourist Invasion**  
The club says that not only this but all indications point to an unprecedented invasion of eastern tourists into this section, and also a new record in the number of resident motorists who will tour in their own section of the country this summer instead of going outside Southern California.

"Clean up and try to look pretty, if not beautiful. Add a little paint and polish here and there, and try to impress upon your visitors' minds that you are an interesting, wide-awake community," are further hints made to those places which have ambitions toward growth and progress. The more charming the small towns appear to the tourists who pass through them, the sooner will the eastern travelers come back, and the more often will motorists who reside in this section return.

**Advantage Gained**  
"It will redound to the advantage of the towns that make a good appearance before their summer visitors, it is contended, because club records show that many eastern tourists planning to come here this year are coming with the intention of establishing permanent homes somewhere in Southern California, and many will settle where the appeal of beauty, cleanliness and hospitality is strongest."

Southern California may reasonably expect a tidy sum from tourist travel, if the figures announced by the National Automobile Chamber of Commerce are correct. These are that \$2,500,000,000 will be spent by motor tourists in the United States this year. This means that Californians with one-thirteenth of the autos in their own state, and with more than 200,000 motor cars from other states, will reap a harvest of approximately \$160,000,000 from motor tourists.

## Connecting Link Called 'Foster's Fire Escape'

The recently built highway which connects the Imperial valley with the mountain districts of San Diego county has been given an official designation—"Foster's Fire Escape." The road lies in the supervisory district of Chairman Joseph Foster, who built the road. According to advice received from the touring department of the National Automobile club, this road will be immensely popular this summer among the residents of Imperial valley in their flights from the heat of the valley to the refreshing coolness of the San Diego mountains.

## Lincoln Highway Now Ready For Motorists

The eastern two-thirds of the Lincoln highway is now in good shape for travel, according to a recent report received from the touring department of the National Automobile club. With few exceptions this highway is now in first class condition from the Atlantic seaboard to Salt Lake City. The snow is almost entirely gone except for a few high spots in western Wyoming, but the ground is generally well dried out and provides comfortable driving.

### PRICE DROP EXPLAINED

DETROIT, April 30.—Automobile men here attribute the drop in price of \$95 on the Hudson coach and \$1000 on the five and seven passenger sedans to the saving in costs incident to full and continuous operation of Hudson plants.

Out Of Two Score Measures  
Dealing With Motorists  
Eleven Survive

Out of the two score bills dealing with the operation of motor vehicles introduced in the assembly at the session of the California legislature which has just adjourned, eleven survived the committee hearings and six reached the Senate. Eight motor vehicle bills were introduced in the Senate and three of these reached the assembly. The motor car owner has therefore passed through the trying period of legislation without being subjected to an oversupply of laws.

The following summary of legislation affecting the motorists of California was prepared by the Legislative bureau of the National Automobile club.

**Breed Bill No. 599—Operators' licenses.** Hereafter temporary permits will be issued on sworn statement as to applicant's physical ability to drive a car and understand warnings and signals. Examinations may be required in the county in which the applicant resides. Temporary permits allow the holder to operate a car during a period of thirty days when accompanied by a licensed operator or chauffeur. After this probationary period, the holder of the permit is eligible to apply for an operator's license. Present holders of operators' licenses are not affected by this new plan. Bill awaits Governor's signature.

**Breed Bill No. 600—This deals with registrations and stolen car records.** Certificates of ownership and registration are required as heretofore. Weight limits are established and special fees for electric vehicles and trucks. The headlight provisions are slightly revised and tests are provided. Eight of way to be given to vehicle coming from the right if two machines approach intersection at lawful speeds. Signals must be given fifty feet before turning. Speed traps prohibited. Arresting officers must be in uniform. Provides for local traffic regulation and uniform state speed regulation. Bill awaits Governor's signature.

**Roberts Assembly Bill No. 488—Provides regulations to reduce theft of cars.** Cars abandoned in garages must be reported to police. Notice of export must be filed before cars are shipped to foreign ports. Notice to wreck or disassemble cars must be given to motor vehicle department and local police. Bill now before Governor.

**Boggs Bill No. 123—Provides for county assessment of motor vehicle before state license can be issued.** Bill now before Governor.

**Reindollar Bill No. 80—Prohibits carrying of animals on outside of car.** An additional cent in rate to prevent injury to animal. Melville Assembly Bill No. 590—Prohibits use of car without owner's consent.

There was a veritable deluge of bills introduced in the Assembly and Senate seeking to add certain items to the state highway construction program.

## FOUR-DOOR SEDAN NASH INTRODUCED

McDaniel Motor Co. Shows  
New Model On Special  
Six Chassis

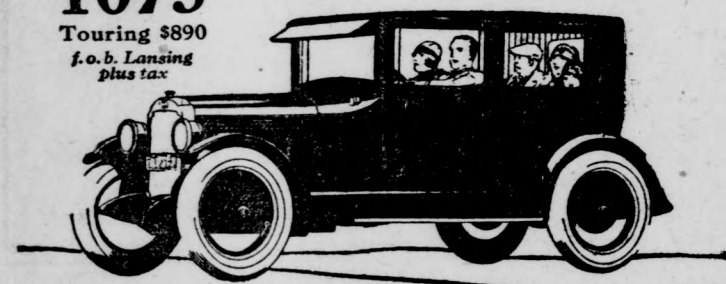

Following the biggest sales and production period in its history, Nash Motors has announced the introduction of a new four-door sedan on the Nash special six chassis, according to Charles McDaniel, manager of McDaniel Motor Co., 1234 South Brand boulevard, Glendale Nash distributors. "The special six four-door sedan was designed and built for that large field of buyers which appreciates and prefers everything in the way of appearance and luxury found usually in cars of higher price and larger size," said McDaniel. "The new sedan embodies all of this. Its wheelbase is 112 1/2 inches, and those who have seen the car are agreed that it is one of the most attractive cars in the Nash line.

"The body is low and gracefully moulded, with full rounded lines at the back; the doors are wide and the seats are deep and restful, the upholstery and trim are in dark blue mohair velvet, and arm-rests are provided in the rear compartment."

American capital is in most of Bolivia's large industries.

## Detour Outlined South From Southgate Region

That portion of Long Beach boulevard in Southgate, extending south from the Southern Pacific tracks to the southern city limits will be closed for at least sixty days more, according to recent advice received from the touring department of the National Automobile club. This is due to the fact that the old cement pavement in the center of the boulevard is being removed and this operation is a tedious one.

The following detour is suggested: East from Long Beach boulevard on Santa Ana street to State street, south on State street to Tweedy road, west on Tweedy road to Long Beach boulevard. This detour furnishes a paved boulevard the entire distance with the exception of approximately one-half mile between Southern avenue and Tweedy street.

News want ads bring results.

## TRAFFIC EDUCATION

Detroit, the mother city of the automobile industry, is spending \$500,000 a year to educate her motorists in traffic regulations. The police are now nabbing 25,000 violators a month and the Bureau of Traffic Violations is all business. The victims spend but five minutes each, and those who desire may plead guilty and pay their fine without seeing the judge.

News want ads bring results.

## Hills Were Built for the Chandler!

Ever notice a Chandler owner eyeing the hill ahead?

Apprehension? Never a bit—that's anticipation!

He knows his Pikes Peak Motor. Knows its spectacular high gear capacity that changes a hill from a pull to a thrill!

Get behind the wheel of a Chandler. Put it through its paces. Tackle the steepest hill you know—in high.

Give it the gas on the boulevard—and feel it leap smoothly, swiftly, silently ahead!

Try to clash gears. Try to miss or fumble a speed change. You can't! The Traffic Transmission makes it impossible.

That's PERFORMANCE—the kind you expect from the one car that offers the Pikes Peak Motor and the Traffic Transmission.

(The Traffic Transmission is built complete in the Chandler plant under Campbell patents)

THE CHANDLER MOTOR CAR COMPANY • CLEVELAND

# CHANDLER

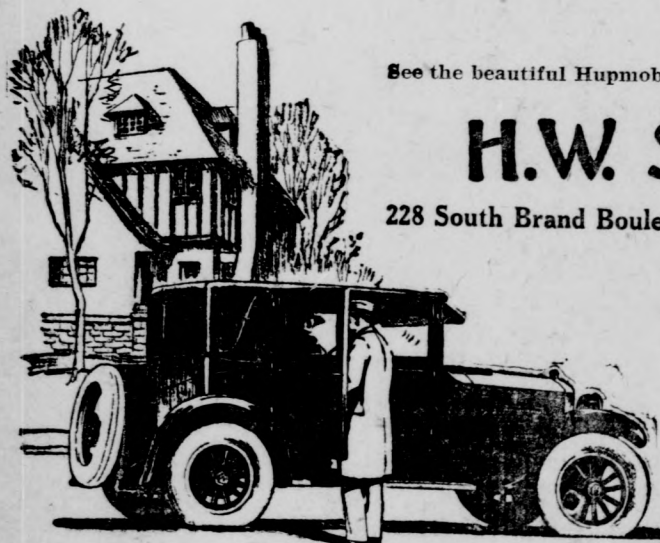

THROUGH sheer superiority of value, this Hupmobile Club Sedan has taken first place in the minds of thousands of families throughout America. Its low price at near open car levels, now brings full measure of closed car comfort, together with the superior economy, dependability, performance, and long life of Hupmobile, to those who formerly had to content themselves with an open car. Here is something new and different in a club sedan. It affords convenience, seating comfort and smartness hitherto lacking in this type of car. It is undoubtedly one of the best possible motor car investments on the market today—affording its owners every wanted sedan benefit, plus valuable features which are special to Hupmobile. A phone call brings a demonstrator to your door. Let us hear from you at once.

FOURS AND EIGHTS

## Just Like Pullman Coach

MISS CATHERINE BOWER, who finds much pleasure in touring around the country in her OLDSMOBILE Six coach, for when nighttime comes, Miss Bower can make her bed inside the coach, lock the doors, and be as safe as if she were home.

When Miss Catherine Bower goes a touring in her Oldsmobile six coach does she mar her maidenly beauty with rough-looking trousers, a mussed skirt and shapeless boots?

She does not. She dresses up in her very best, which is very good, indeed, and blithely heads for the edge of civilization without a single qualm.

Afraid? Nothing to be afraid of when you can lock yourself in the Oldsmobile at bed time just like you lock yourself in the house at night, says Miss Bower. The young lady told C. H. Hunter, 208 West Broadway, Oldsmobile distributor, that one could go clear across the country in an Oldsmobile six coach without having to pay a single hotel bill and for a couple of girls who like to go off on week-end jaunts into the hills, the car is simply ideal, she says.

## DEALER RECOUNTS BUICK'S STANDING

Local Dealers Say Back Of Name Is Found Work Of Best Experts

The name of a motor car must be won, according to William A. Tanner of Tanner & Hall, 622 South Brand boulevard, Glendale Buick dealers.

"The name, before it possesses value, must stand for a definite achievement," said Tanner. "It must, in a word, convey a story of the combined and successful effort of thousands of men over a long period of years."

"On each Buick radiator there is the word Buick. Just a piece of common, ordinary metal stamped out and then enameled. In itself, nothing; in its significance, everything."

"For that one word typifies the long sustained efforts of the ablest automobile engineers in the world. It calls to mind a picture of master artists bent on a task which demanded and received the very best of their skilled and intelligent craftsmanship."

"The Buick name is a synonym to motorists all over the world for absolute correctness in design and complete accuracy and efficiency."

## ONE FAMILY OWNS 5 PACKARD AUTOS

Bay City Residents Claim Records As Champions, Local Dealer Says

The champion Packard automobile owners of the world! This is the title claimed by the Hills family of San Francisco. When Edward E. Hills came to Los Angeles recently and bought a new Packard Eight, four passenger sport model, it was the fifth Packard to be owned by members of his family.

The model selected by young Hills was a duplicate of the one that won the beauty prize at the Los Angeles automobile show. The car is of Mojave gray color with Burbank top and baggage trunk to match. These features intensify the lean greyhound lines of the Eight.

Another Bay district family that is claiming a near record for Packards is the Tietzen family of Oakland. In their garage repose four Packard models, including twin six, single six and the new eight. Packards in Glendale are handled by the Dixie Motor Co., 1129-31 South Brand boulevard.

## Commercial Autos Are Defined For Licenses

According to a bulletin received from W. H. Marsh, chief of the state division of motor vehicles, by the National Automobile club, all vehicles of the passenger car type used by salesmen and others for the purpose of carrying samples or other articles weighing less than 150 pounds and not designed with a box for delivery purposes, are not subject to commercial license fee. The mere fact that a rack similar to a trunk rack is attached to such vehicles does not make same designed for the transportation of property. However, this ruling does not exclude all vehicles used for the transportation of passengers or property for hire.

## FOUR RACES SHOW WORTH OF DEVICE

Winfield Carburetors Used By Winning Drivers At Culver City Events

When Hartz, De Paolo and Duray flashed across the finishing line at the recent Culver City classic, they not only set a new standard for speed but incidentally added a clump of feathers to the cap of the Western Auto Supply Co., distributors of the Winfield carburetors.

The cars equipped with the Winfield made a clean sweep of the leading events of the day. Harry Hartz, winner of the main event and Peter De Paolo, runner up, ran the fastest fifty mile race ever recorded on the racing sheets. Hartz made the fifty miles in 22 min., 11 sec., establishing a speed of 135.25 miles per hour. In the first heat, Leon Duray topped first money with his Miller Special, Winfield equipped. In the second heat, De Paolo's iron steed made the fastest lap in the history of motor racing at the speed of 139.7 miles per hour. Phil Shafer and Wade Morton also drove cars equipped with Winfield carburetors.

"An outstanding feature of the Winfield product," says C. H. Roubesh, local manager of the Western Auto Supply Co., "is that the self same carburetor used by the knights of the roaring plank may be used on the pleasure or commercial cars. On the highway, it is rapidly becoming the favorite among car owners who demand perfect carburetion with no adjustments for changing temperatures, with quicker acceleration and elimination of the 'flat' spots."

## LUNCH FACILITIES

Quick lunch tea rooms are to be added to filling stations in England for the benefit of motorists. A number of the stations have free "wash and brush-up" rooms as well as quick lunch facilities, where members of the motor party may satisfy their appetites.

Photographs reveal eye diseases.

## The finest ESSEX ever built

## Never Before Such Quality at or Near the Price

Today's Essex is the finest ever built. It is the smoothest, most reliable Essex ever built. It is the best looking, most comfortably riding Essex ever built. And the price, because of volume, is the lowest at which Essex ever sold.

Its overwhelming public acceptance confirms by actual sales supremacy the outstanding leadership of Essex value. Never was that position so clear, and so rightly deserved as today.

Essex won its great recognition on the issue of finest quality, performance and utility without useless size, weight or cost.

And with its low first cost and operating economies, you get qualities of long-lasting, reliable performance, smoothness and riding ease.

Essex requires little attention to keep in top condition. Its maintenance cost, we believe, is the lowest of any car in the world. You sacrifice no motor-ing pleasure, comfort or good looks that large, high-priced cars can give.

Can any other car within hundreds of dollars of the price satisfy you so well?

## CLEVELAND CARS INCREASE SALES

Local Dealer Says Makers  
Jump Production 300  
Per Cent In Month

The latest production figures of the Cleveland Automobile Co., manufacturers of the Cleveland Six, indicate that this company has been obliged to increase its production of new cars, both standard and special series, to the extent of 300 per cent over the schedule of last month, according to Don J. Barton of Barton Brothers, 1119 South Brand boulevard, Glendale dealers of Cleveland and Chandler cars.

February shipments of cars were 25 per cent greater than those made in the same month of last year. In boosting the number of cars being produced extra men have been added to the working forces and an extended work-

ing schedule has been put into effect. The capacity of the plant on a single shift of men is 150 cars a day but this can be increased to 250 cars, according to advices received by Barton.

In keeping with the healthy, domestic business volume which is being enjoyed, Cleveland Six shipments abroad so far are practically double what they were up to the same time last year.

## Roads Into Big Bear Depend Upon Weather

The Mill Creek and City Creek roads to Big Bear lake are scheduled to be open by May 1, depending upon weather conditions, according to recent reports from the touring department of the National Automobile club. At the present time the only route available to Bear valley is via the desert through Victorville, which is in good condition. Both the Hesperia and Waterman canyon routes to Arrowhead lake are in excellent condition at the present time. Chains are advisable after rains.

## Miss Lois Hamilton And A. C. Johnson Wed

Miss Lois Marguerite Hamilton, 321½ West Fifty-first street, Los Angeles, and Allan C. Johnson of Glendale, were married at 8 o'clock last night, Wednesday, April 29, 1925, in the bridal room of Central Christian church by Rev. Clifford A. Cole. They were attended by Mr. and Mrs. Herbert N. Johnson, 808 East Colorado street, and Mr. Johnson's mother. Mr. and Mrs. Johnson will reside in Glendale.

## Fellowship Dinner At East Broadway Church

Rev. Maurice M. Johnson announces that the weekly fellowship dinner of Broadway Methodist church, South, will be held tonight at 6:15 o'clock at the church. The third chapter of Genesis will be studied at the meeting of Community Bible class and a short prayermeeting will be conducted at 8 o'clock.

## MIX AND TONY IN GATEWAY PICTURE

Wonder Horse Of Screen Is  
Featured In 'Deadwood  
Coach' With Master

The Gateway Theatre will feature Tom Mix and Tony, his wonder horse, in "Deadwood Coach," today, Friday and Saturday. "This is a thrilling journey through a romance land far beyond civilization's frontier. It is a vehicle which thoroughly displays Tom Mix's prowess as a horseman and a man of the great out-of-doors.

As an animal actor few can lay claim to the honors which have been bestowed on Tony, wonder horse, who is ridden in this picture by Tom Mix. Through his wonderful work for the screen, the animal has won thousands of friends, who admire not only his unrivaled beauty, but the unsurpassed display of almost human intelligence Tony shows when appearing before the camera.

"Deadwood Coach" is a typical western picture, with every essence of daring, mystery, villainy, and fighting that will please the most critical theatregoer. Tom Mix, always a favorite with children from five to fifty years old, is at his best in "Deadwood Coach."

## MERCHANTS AID THEATRE PLANS

Committee Of Business Men  
Further Project For  
Dobinson Players

men which has in hand the question of the erection of a new theatre here for the Dobinson Players have evolved a plan to insure Glendale's substantial interest in the institution which means the expenditure of between \$30,000 and \$100,000 a year in Glendale.

This plan guarantees the attendance, and the promoters are enthusiastic over its simplicity and workability. Neither Mrs. Dobinson nor her personal backers nor anyone else connected with the production is required to do any work on the proposition.

The schedule of the Dobinson Players from now until the first week of June is as follows: Glendale Playhouse, all of this week and all of next week, ending Saturday night, May 9, "The Wonderful Thing." The play is being held over for a second week and plans to change the bill abandoned because of the splendid appeal and the generous patronage. The work of Miss Doris Lloyd as the little French girl who is tricked and deceived by those who should shelter and protect her, is exceptionally fine, and has much to do with the popularity of the piece.

To Invade L. A.  
For two weeks commencing Monday, May 11, the Dobinson Players will present their biggest success, "Manna," at the Philharmonic auditorium in Los Angeles. There will be a performance every evening and Wednesday and Saturday matinee in the city.

At the close of that engagement the company will come home to Glendale and repeat "Manna" here for two more weeks at the Playhouse, Monday, May 25, to Saturday night, June 6. The local revival is made inevitable by the very great interest which still exists in the wonder play that has created a greater impression than anything done in Southern California this year.

## FREE FORD COUPE IS CONTEST OFFER

Ever-Ready Service Station  
Announces Details Of  
Prize Awarding

Extra! Extra! All about the Ever-Ready Service station's free Ford coupe contest. No strings attached, no coupons to buy, no red tape. Just a perfectly good Ford to be given away to the lucky one.

Here are the conditions governing the contest for the free automobile. With every purchase of one dollar made at the Ever-Ready station, a free ticket on the Ford coupe will be given. Later the winner of the Ford will be announced.

Beside the Ford contest, the Ever-Ready Service station located at the corner of Broadway and Central avenue, is still making its startling offer of \$100 reward to anyone who can prove that we have sold gasoline other than the very best grade and highest test. H. J. Seely, proprietor of the service station, said, "Notwithstanding, our gasoline sells for 1½ cents per gallon less than the ordinary price."

China's unfavorable trade balance is about \$150,000,000 a year.

X-rays cure whooping cough.

## Four Roles

NORMA TALMADGE, who  
appears in SECRETS, the  
current picture at the Cosmo  
theatre.

Norma Talmadge, in her latest First National picture, "Secrets," now showing at the Cosmo Theatre, plays four different roles in four different periods and in four different settings.

It is a picture of modern romance with glimpses into three other periods of American home life. Starting out in 1923, the picture later shows Norma first as a young wife of the early days in Wyoming and the far West.

Then the action switches to the year 1870. Norma has become the mother of a growing family. The passing years of the photograph's story next show her in the gowns of the late '80s of the last century. Her hair has greyed and the children have grown but it is the same Norma of the early sequences of the story. Last of all, Norma is shown again in modern costumes in 1923 settings.

"Secrets" is an unusual picture. It has an unusual story which is developed in a novel fashion. And in it Norma has a splendid opportunity, of which she avails herself to the full to display a remarkable range of characterization.

One is hardly able to believe that the Norma seen in the early sequences as a young wife and as a mother is the same person who is shown later with grey hair and in the black silk dress so much favored by our grandmothers.

## Tire Stolen But New Jack Is Left Behind

Tire thieves traded a new automobile Jack for a cord tire and rim last night.

J. R. Hamilton, 1015 South Columbus street, reported to police today that while his machine was parked near the Harvard street high school thieves jacked up the rear end of the car and removed the tire and rim. Then, evidently frightened, they fled without taking the jack with them.

A quantity of tile was stolen from a new building at Park avenue and South Brand boulevard last night, according to a report by George Hill of the Sunset Tile Co.

## Glendale Music Club Annual Banquet May 2

Mrs. Mattison Boyd Jones, president of Glendale Music club, is completing plans for the annual banquet and program by the Oratorio department next Tuesday night at the Tuesday Afternoon clubhouse. Reservations for the dinner must be made with Mrs. Colin Cable by Saturday noon, May 2. Among the special guests will be members of the City Council, the Chamber of Commerce and heads of local service clubs.

Don't pay this fellow. It isn't at all necessary. See us about an insurance policy that repays you any loss you may suffer at the hands of the burglar. Let us call and explain.

## REPORTS DEMAND FOR CLOSED CARS

Expects April Production  
At Hupp Factory Will  
Set New Record

The closed car demand is especially heavy at the present time and is increasing steadily, according to Harry V. White, manager of the H. W. Swanson Hupp mobile agency, 228 South Brand boulevard. As a result manufacturing operations of the Hupp Motor Car Co. are now being carried out at the highest rate in its history.

Demand is active both for the new Hupp mobile eight and the four, with dealer stocks relatively low. In March 76 per cent of the shipments from the Hupp factory, including exports, were in closed cars, compared with 50 per cent for the first 110 days

## BURBANK NEWS

BURBANK, April 30.—The big event of the year at the Luther Burbank school will be the May festival to be held tomorrow on the school lawn beginning at 9:15 o'clock. Rose Johannes will be the May queen, having been selected from a number of candidates. Each child in the school will have a part in the feature pageant.

W. J. Riley has been elected president of the Finance & Thrift Co. of Burbank, recently organized as an industrial bank. T. H. Golay is first vice-president; A. J. Rose second vice-president, and of 1924, according to word that has been received from the factory by White.

April manufacturing is expected to set a new record business volume, and may surpass in actual number of units anything previously done. Before May 1 Hupp expects to have produced and shipped more than 5,000 of its eight-cylinder models, creating a new high record demand for a multi-cylinder car.

E. J. Jackson, secretary-treasurer and general manager. The new company expects to begin active business May 15.

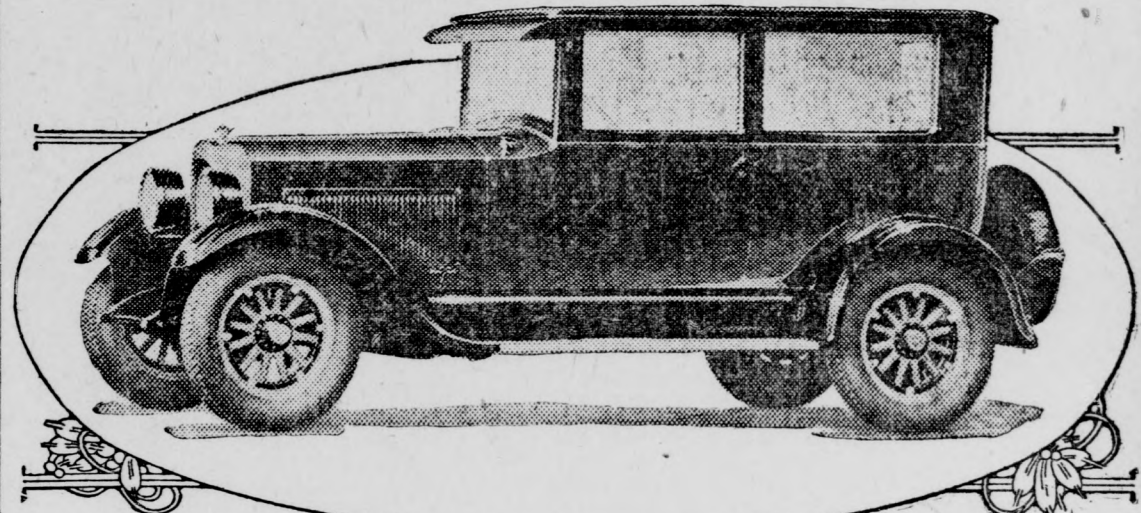

Donald Saulsbury, 12-year-old newsboy of Burbank, was held up and robbed of his day's earnings, \$2.37, by a poorly-dressed stranger in the Southern Pacific yards. Police were notified but the yegg escaped.

George T. Ballance, brother-in-law of Sir Harry Lauder, will appear in Scotch costume at the father and son banquet at the Hi-Y club of Burbank to be held on Monday evening at the Burbank Methodist church. There has been a heavy demand for reservations.

W. R. Flske has begun construction of four units of a court at 417 Elmwood avenue to cost \$10,000.

## SPEED LIMIT RAISED

BOSTON, April 30.—The progress of legislation raising the Massachusetts speed limit to thirty-five miles an hour is taken among automobile men as an indication that traffic congestion will be greatly mitigated here this year.

## ONLY PACKARD CAN BUILD A PACKARD

## The Gifts of PACKARD

DURING the last twenty-five years it has been Packard's privilege to make many fine gifts to those who buy motor cars.

A few years ago it was the fuelizer, found only on Packard cars, and then last year, four-wheel brakes, for Packard was the first well-known motor car builder to include four-wheel brakes as standard equipment.

Now Packard is offering at one time three gifts, the most important improvements since the days of the electrical starter, nearly fifteen years ago.

The thousands who have taken delivery of new Packard cars, both Six and Eight, during the past few weeks have found in them:

1. The motor oil rectifier.
2. The chassis pressure lubricator.
3. The new steering and front spring suspension.

Numbers 1 and 2 should double the life of your car, reduce operating and maintenance charges and add years to your peace of mind.

Number 3 makes available the advantages of low pressure tires with the elimination of dangerous wheel wobble.

No other car has these three improvements.

May we show you why those who own Packard cars need to change motor oil but four times a year, and how they lubricate their cars in less than one second of time?

And will you, as our guest, drive one of these new cars over a route selected to bring out the advantages of the new steering and spring suspension?

If it will be any hardship for you to stop at our store during the next few days, a 'phone call will bring a car to your door, where you may inspect—the latest gifts of Packard.

## SPRING RUSH ON AT HUDSON-ESSEX

Coaches In Big Demand By Trade, Kelley, Local Dealer, Says

The old-fashioned "spring rush" is a hardy animal. There were predictions during the winter that the great swing to closed cars would level out this old-time feature of the business. But good as winter business was, the April sales are going at a rate just about twice as fast, according to P. A. Kelley of the Kelley Motor Co., 816 South Brand boulevard, Glendale Hudson-Essex dealers.

The first part of April had a volume of new Hudson-Essex cars sold and registered, about 96 per cent of them being coaches, which is double the average volume for the year. The factory is now working twenty-four hours a day to keep up with the demand for prompt deliveries. One thousand cars a day, the largest six-cylinder business by far, in the industry, are being made.

May and June are expected to furnish one of the most striking spring rushes of business ever known for Hudson-Essex dealers.

By Southland News Service.  
**WATER MERGER PLANNED**  
HEMET, April 30.—A merger of water interests bordering on the San Jacinto mountains and the floating of a \$2,500,000 irrigation district bond issue is a project well on the road to realization, according to an announcement by W. H. Pawson, Jr., guiding genius of the consolidation.

**TOURISTS ARE COMING**  
RIVERSIDE, April 30.—E. F. Deigert, assistant general passenger agent of the Union Pacific, was in the city today arranging for receptions to tourists this summer who will see Southern California. About 100 special trains with Shri'ers are to be routed through this city, while 80 per cent of the Elks and Knights Templar convention crowds will come down from the northwest on their way home, he said.

**MUTT DOG HONORED**  
RIVERSIDE, April 30.—Mutt dogs yesterday paraded the streets of Riverside and last night the prize winner was presented the crocheted dog biscuit by Eddie Nelson, Orpheum star, at a local theatre. It was part of the Boys' week program here which was featured by a fake bootleg raid staged by youthful officers under the direction of Sheriff Clem Sweeters.

**TO TOUR WORLD**  
CORONA, April 30.—Fay Reeder, managing editor of the Corona Daily Independent, will leave shortly on a publicity trip which will take him around the world, according to an announcement made today regarding his resignation.

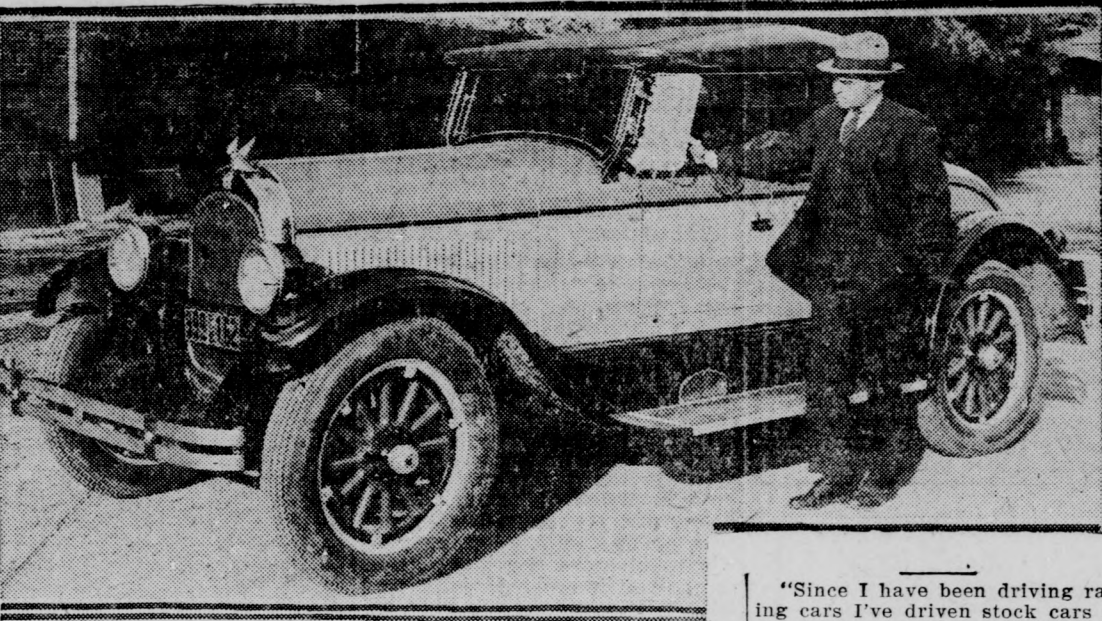

**FLAX RAISED IN SOUTH**  
SANTA MARIA, April 30.—Flax equal to that grown in the east is reported growing successfully on the Suey ranch by T. C. Asmus, superintendent. Oil from the seed is used for paint and linen cloth is made from the flax while the stalks are chopped up for cattle feed. One hundred acres are planted this year after last year's successful experiments by Asmus.

**WATER SUITS INITIATED**  
SANTA ANA, April 30.—With the filing this week of seventeen condemnation suits the city of Santa Ana has initiated its program for obtaining a \$1,200,000 gravity water system, including a 300-acre reservoir site with a capacity of 47,000,000 gallons.

**HERMIT GOING TO MEXICO**  
SANTA ANA, April 30.—Thomas Watson, 78, a hermit living near the mouth of Santa Ana river at Huntington Beach, is leaving his abode to go to Mexico because of his abhorrence for civilization. He lives on fish and vegetables, does not smoke, drink or use coffee, tea or seasonings in his food. Money is the curse of the world he claims, and because

## When Driving Expert Chooses

BENNETT HILL, noted speedway driver, who has pressed the gas throttle on nearly every make of automobile, selected a CHRYSLER roadster when he wanted a car for his own use on the highways and byways of Southern California.

## BOY SCOUT PROGRAM PLANNED IN ATWATER

Membership Campaign Will Start Soon With Prizes to Patrols Getting Highest Marks In Drive

Under the direction of R. L. Peterman, who has been appointed new scout master, and the scout committee consisting of George Mummaugh and H. W. Manning, a definite program of Boy Scout activities will be worked out for scouts in Atwater Park.

A drive for a larger membership in the troop will be launched with prizes for the boys bringing in the most new members. The troop will be divided into patrols to facilitate the work and to create different grades for the tenderfoot scouts and those more advanced in the scout activities. Six new members were admitted to the troop this week, Mr. Peterman announced.

The tentative program for the meetings, held each Monday night at the home of Mr. Peterman at 2444 Loclede street at 7 o'clock, will include short boys' talks and entertainment features in addition to the scout tests and other activities. R. F. Brown, for many years an active boys' worker, will assist in the scout work.

It was also announced by Mr. Peterman that he will accompany members of the troop to the big scout rally in Los Angeles on Friday night. All boys should meet at the home of Mr. Peterman at 2444 Loclede street at 7 o'clock. Boys wishing to join the troop should communicate with any scout or with Mr. Mummaugh, 3353 Larga avenue, or Mr. Manning, 3352 Atwater avenue.

## Improve Griffith Park

With the connection of Griffith park with Mulholland drive, the Los Angeles park board, under Van Griffith, and working with Councilman Robert M. Allen, will plan a vast program of improvement to make the park not only the largest, but likewise the best equipped in the United States.

Part of this program includes camiles of bridge path, new automobile roads, hiking trails, new golf links, twelve more tennis courts and a new clubhouse.

The plans also call for a new outlet from the park, by way of Vermont canyon and a huge program of reforestation. Already thousands of trees have been planted by the park department.

## Attacks Transportation

An attack on poor street car transportation in the Atwater Park and Riverside drive sections of the curious invading his hermitage, he is going to evacuate.

## BAND PLAYS AT PHOENIX

SANTA ANA, April 30.—The Santa Ana municipal band has journeyed to Phoenix, Ariz., to fill a week's engagement at the new Joyland park.

## ALLEGES BLACKLISTING

SAN BERNARDINO, April 30.—Henry B. Collier, Colton, has filed suit for \$60,000 against the Pacific Fruit Express, alleging blacklisting.

"Since I have been driving racing cars I've driven stock cars of nearly every make on the market, but none of them, in my opinion, is as close to racing automobile performance and perfection of manufacture as the Chrysler," Bennett Hill wrote to Lyman P. Clark of the Glendale Motor Car Co., local Chrysler dealer at 124 West Colorado street.

"The 'zip' and 'pep' the Chrysler has, really is phenomenal," continued the diminutive speed king, winner of the inaugural race on the Culver City speedway last Thanksgiving day and who has the distinction of being the first man living to drive 250 miles on a speedway at an average greater than 126 miles an hour.

"On the other hand," his letter read, "my car will throttle down in high gear until it is barely moving, but as soon as I step on the throttle it leaps ahead as though a charge of powder had been set off behind it."

## LATE CHEVROLET COUPE SUPPLIED

Local Dealer Hough Receives Shipment Of New Model In Much Demand

The arrival of a shipment of the new Chevrolet coupes that have been creating such a sensation throughout the automotive world has placed the local dealer, James V. Hough, Colorado and Orange streets, in a position to supply the needs of at least a few of his customers. Mr. Hough said:

"These cars are in great demand all over the country, and the dealer organization of the Chevrolet has been begging for more of them ever since the first models were placed on the market. It has only been by the most urgent pressure on the factory that I have been able to secure those that I have on display now, and the first buyers to come for them will get them. Others will have to wait until I can get another supply of them in."

**New Coupe Model**  
"The new Chevrolet coupe, which was introduced early this year, has incorporated in it many features never before offered in a car of this class, many of them of the type and the quality only to be found in cars of the highest class and cost."

"With the attractive sage green color scheme that marks the coupe on the lower panels and the hood, and the black on the upper panels, the latest creation of Chevrolet is a striking automobile that fully justifies the demand that has arisen for it."

## Humane Society Will Meet Friday Night

E. F. Kulp, president of Glendale Humane society, states that important business matters will be taken up at the meeting at 3 o'clock Friday night at the Chamber of Commerce office, South Brand boulevard.

## Mrs. M. Ewell Smith Is Ill In Los Angeles

Mrs. M. Ewell Smith, mother of Mrs. Mattison Boyd Jones, and Mrs. W. E. Evans, is seriously ill at the home of another daughter, Mrs. L. A. Phillips in Los Angeles.

## Madrigal Club Will Give Two Concerts

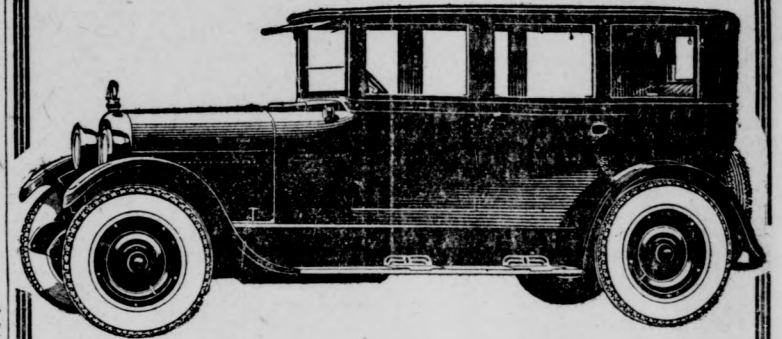

Madrigal club members are to give two programs in May, the second concert of the season, May 19, at the Tuesday Afternoon clubhouse, and an old-fashioned concert May 22 at Harvard High school for St. Mark's Guild. Plans for both events were made yesterday by club directors meeting at the home of the president, Mrs. Paul Hoffman, 327 North Maryland avenue. Mrs. C. A. Parker was assisting hostess.

More men than women are left-handed.

## NEWS BY LETTER

By INTERNATIONAL NEWS SERVICE STAFF  
Furnished Exclusively to The Glendale Evening News

LONDON, April 30.—Always the subject of bitter controversies in British history, the House of Lords' Constitution is to be reformed.

The British Cabinet, so Lord Cave (Lord Chancellor) has announced, is setting up a committee to see how this reform can best be brought about.

There are three chief points over which opinions violently differ in regard to the House of Lords. Chief of these is its hereditary character. It is true that new peers are constantly being created, but these in their turn immediately become hereditary.

The second point is that the House of Lords has no say whatever in regard to finance. If a bill relating to taxation or finance is certified by the Speaker of the House of Commons as a "Money Bill," it cannot be amended by the Lords. They can accept it or reject it, but they cannot interfere with its terms.

Then there is what is known as the "Parliament Act," carried by the present Earl of Oxford and Asquith in 1911, after an amazingly bitter party battle. This lays down that if a bill is passed by the House of Commons in three consecutive sessions, it becomes law even although the Lords reject it.

According to Lord Cave, who has been speaking on behalf of the Cabinet, it is recognized that a reduction in the numbers of the House of Lords would make for efficiency, and that there should be a strong elective element. At the same time the present government intends to stick to the hereditary principle as the chief constituent of the House.

In regard to financial bills, the Baldwin Cabinet does not think that the decision as to what constitutes a finance bill should be left solely in the hands of one man. They will advocate a small committee, equally divided in numbers between the Lords and Commons, to pass on these matters.

In regard to the Parliament Act, the Cabinet wants this largely amended. It is pointed out that only two bills have become law

under this process; one of these was amended, the other repealed.

An attempt will also be made to provide for the adjustment of "obstinate differences" between the two Houses. Whether this will be by conferences, joint sittings or referendum is left to the committee.

The Baldwin Government frankly admits that some change must be made to bring the House of Lords up to date. At the same time it does not hide its fear that should the Labor Party come into power with a big majority, then some "revolutionary things" may be done if the Lords do not reform themselves before they are reformed from outside. But they hold fast to the view that the Lords often more nearly represent the true opinion of the country than the Commons.

According to Lord Oxford, the Lords at present do not meet the needs of democratic government or the demands of the country. He does not favor giving the Upper House any power over finance, but he thinks they should be reconstituted on a democratic basis with powers of wide criticism, revision, consultations, as well as legislative initiative.

## OPERA STAR NEXT ON ORPHEUM BILL

**Dorothy Jardon, With Golden Voice, Featured Player For Next Week**

Dorothy Jardon, whose golden voice brought both fame and prestige to the Chicago and San Carlo opera companies, will feature the Orpheum bill beginning next Monday matinee. With her comes Jerry Jarnigan, one of the best pianist accompanists the stage has today.

For variety the Orpheum has held over the Mosconi brothers and sister Verna, with their unique dancing act.

Elizabeth Brice, a winsome stepper brings with her Frank Kresler and his band.

Robert Emmett Keane and Claire Whitney, former movie star blossom forth with a brand new sketch called "The Gossipy Sex." Bert York and Ed Lord are "Two Gentlemen Never-the-less."

"Working for the Railroad" is the job that Glen and Jenkins are making people laugh with. Bronson and Edwards will entertain while Elsie Clark, phonograph artist will sing the songs that have made her so popular with record fans.

Topics of the Day and International news will wind up what promises to be one of the outstanding bills of the spring season.

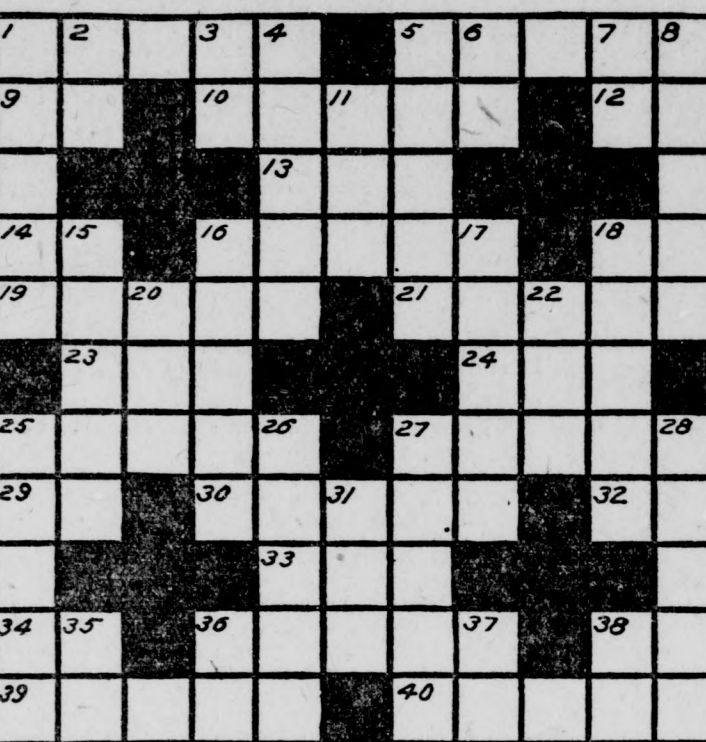

**Local Vocalist Sings At Club Women Meet**

Mrs. L. G. Sherman of 316 West Lexington drive, vocalist, gave the musical program yesterday at the Wednesday Morning club in Los Angeles. She was accompanied by her mother, Mrs. Alma Gibbs.

Mrs. Sherman sang "Trees" (Kilmer); "Her Rose" (Coombs); "Margaret" (Dorothy Foster); "Thank God for a Garden" (Del Rio); and "The Last Rose of Summer." Dr. Milbank Johnson of Pasadena spoke on "Taxation."

## CROSS WORD PUZZLE

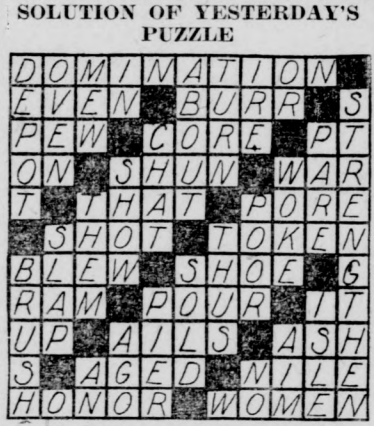

COMPILED FOR GLENDALE EVENING NEWS READERS  
Copyright, 1925, By The George Matthew Adams Service

The purpose of THE EDUCATIONAL CROSS WORD PUZZLE is to teach the meaning and use of words. In this the regular crossword puzzle is defective. Dr. Edward L. Thorndike of Columbia University, the world-famous psychologist has scanned over 5,000,000 words from the Bible, classics, novels, trades, and newspapers. He has selected the 10,000 most common words. Our EDUCATIONAL PUZZLE is confined to these 10,000. The average person's vocabulary is 2,500 words. Why not increase yours?

- HORIZONTAL**
- The engine left great clouds of —
  - Little hairs protect the — cavity from dust.
  - There is — more left.
  - The car had balloon —
  - is an exclamation.
  - , 6, 1924.
  - Newport.
  - The bad news seemed to — him at once.
  - Will you go with —?
  - without knocking.
  - The dog's name was —.
  - The crows began to — excitedly.
  - the door with this heavy timber.
  - An — is used to bore holes.
  - Let us sit on this —.
  - Jones is our physician.
  - John — a bicycle to school.
  - Surrender, — rebels!
  - We traveled over land and —.
  - it here?
  - She was a malicious, gossiping —.

- VERTICAL**
- Some people — when sleeping.
  - Come — dinner this evening.
  - I will be ready — nine.
  - A 12-year-old boy is a —.
  - he rude to old people.
  - Do — you see fit.
  - , what a beautiful sunset.
  - A true sportsman is a good —.
  - Do not — the bird's nest.
  - Do not — a debt you cannot pay.
  - A large — carries away the refuse.
  - The priest's — were of green velvet.
  - Show — to those whom you conquer.
  - The children are playing —.
  - The — overturned at the curve.
  - Will you — that you were wrong?
  - They had — early that morning.
  - Bathers covered the —.

## Federation Members Give Press Luncheon

Among the guests yesterday at the press luncheon and "jinks" of the Los Angeles District, California Federation of Women's clubs at the Friday Morning clubhouse, Los Angeles, were Mrs. Mattison Boyd Jones and Mrs. Charles H. Toil of Glendale, past presidents of the district. Mrs. Mary B. Darrow of La Crescenta, correspondent for The Glendale Evening News, and press chairman during the year for the La Crescenta Women's club, portrayal of "Cinderella" in the feature skit of the after-luncheon hour.

Other Glendale women present were Mrs. Carrie Campbell, president, and Mrs. J. W. Sharpe, press chairman of the Thursday Afternoon club; Mrs. A. H. Montgomery, president, and Miss Eva Daniels, press chairman of the Tuesday Afternoon club; Mrs. R. W. Meeker, president of the Rectiprocity club of Los Angeles; Mrs. Goodman Phillips; and Katherine V. Sinks, club editor of The Glendale Evening News.

- The — is an important organ of the body.
- He was working in his — when I arrived.
- She was tired, — she stayed home.
- When — were schoolmates.
- , I have caught you!
- I will stop — my way home.

## UNCLE WIGGILY

By HOWARD R. GARIS  
Copyright, 1925, By The McClure Newspaper Syndicate

### UNCLE WIGGILY'S SHOWER BATH

A few days after he had married Mrs. Jump, the rabbit widower, who gave the bunny gentleman such a jolly surprise by bringing to his bungalow forty-seven little children rabbits she owned—a few days after this, Mr. Longears thought he would hop out and look for an adventure.

"You will not be lonesome, will you, my dear?" he asked his new wife.

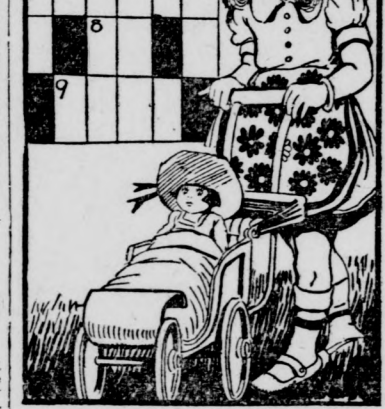

"Well, just a little," she answered, as was proper. "But Nurse Jane and I can find plenty to do, I suppose," for the muskrat lady housekeeper continued to live with Uncle Wiggily after the wedding.

"Some day you must come adventuring with me," Uncle Wiggily said to his wife, and she promised that she would. Then the bunny gentleman began looking for his tall, silk hat, which he wanted to wear as he hopped over the fields and through the woods.

"Have you seen my hat, Nurse Jane?" asked Mr. Longears.

"Why, seems to me I saw one of the bunny children picking it off that hat tree a little while ago," answered Miss Fuzzy Wuzzy. "I thought they were bringing it to you."

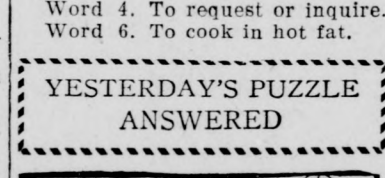

### CROSS WORD PUZZLE FOR YOUNGSTERS

The words start in the numbered squares and run either across or down. Only one letter is placed in each white square. If the proper words are found each combination of letters in the white squares will form words. The key to the puzzle—the first word—is given in the drawing. Below are keys to the other words.

- Running Across**
- Word 1. In the picture.
  - Word 5. Another name for father.
  - Word 7. One who shoots at members of the enemy forces from long range.
  - Word 8. You and I.
  - Word 9. The word usually used to end a prayer.
- Running Down**
- Word 2. A powerful drug which is smoked by the Chinese.
  - Word 3. To slip gradually backward.
  - Word 4. To request or inquire.
  - Word 6. To cook in hot fat.

## Diet and Health

By LULU HUNT PETERS, M. D.

### ANSWERS TO CORRESPONDENTS

**Mr. B.**—Yes, some of the patent medicines do contain a high percentage of alcohol and they certainly are habit-forming.

Why do you take patent medicines? Increase your exercises and change your diet according to the advice I am constantly giving in the column and in general, live a more hygienic life. You will find a great improvement.

Have you had a thorough physical examination by a scientific physician?

**STILL AT IT**

"Dear Dr. Lulu: I am again dropping you a line to let you know that I am still very happy that I found your way of reducing."

"I am the 'girl' of 300 pounds who wrote you when I reduced 60 pounds and had 100 more to go. I am still on the job. I now weigh 214 (86 lbs. total loss) and am losing every day. I am not bothered any more with short breath, and am not so clumsy getting around. I really feel like a young girl, ready to walk and do work any time, without any hesitation."

"I just can't begin to praise you enough, Dr. Lulu, for what you have done for me. Although I am 53 years old, I haven't any wrinkles from reducing. And I get so many compliments on my youthful appearance. What a grand, a glorious feeling it is!"

"Thanks again, dear Dr. Lulu."

**—Mrs. M. T.**

Isn't this a wonderful testimonial? (Why don't you join our club? If you missed the instructions, we have them in a booklet. Enclose a self-addressed stamped envelope and 10 cents in stamps if you desire it).

Thank you for writing, Mrs. T., and do write again soon.

**GOLTERS**

**Mrs. L.**—The tablets I mention in the column as a cure and preventive for simple goiter have been used very successfully in the Lake states and in Switzerland. I will give the name of these tablets to your physician, if he will write me on his official stationery.

(We have an article on Goiter which you may have by sending a self-addressed, stamped envelope with your request.)

## Housekeeping

By LAURA A. KIRKMAN

### A CHILD'S KNITTED SWEATER

**TOMORROW'S MENU**

Breakfast  
Sauce from Dried Apples  
Cereal  
Codfish Balls  
Pop-Overs  
Luncheon  
Spanish Omelet  
Wholewheat Bread  
Jam  
Dinner  
Tomato Bisque  
Broiled Mackerel  
Potatoes Steamed in Skins  
Spinach  
Prune Salad  
Lemon Gelatine Mold  
Coffee

To knit a pretty slipover sweater for a child aged from one to two years, buy three large balls of Shetland floss (or five small one-ounce balls) of a pair of No. 3½ bone or celluloid needles.

**Back:** Cast on 60 stitches. K plain for one and one-half inches. Next row \* K one, yarn over needle, K two together, repeat from \* across; on the next row knit all stitches, knitting the yarn over as a stitch (this forms hem stitching). Then knit seven inches plain. Now increase one stitch at each end every other row three times, cast on 30 stitches at each end for sleeves, knit three and one-half inches, and on the next row knit 55 stitches off onto a stitchholder, bind off 16 stitches for neck, and on the remaining 55 stitches start the front (hem stitching). Front: Cast on 14 stitches toward the front and knit until sleeve measures seven inches, then bind off 30 stitches for sleeve and

decrease one stitch every other row toward underarm chest. Work other side the same as first, then work all stitches onto one needle and finish front to correspond with back.

**Cuffs:** Pick up the stitches at the end of sleeve. Knit two, purl two, for three inches. Work a row of hemstitching and finishing with three-quarters of an inch of plain knitting. Turn back the cuff so that the hemstitching will come in the middle of it.

**Collar:** Pick up the stitches around the neck and knit five yarn over, knit two together, knit to within seven stitches of end, yarn over, knit two together, knit five; next row knit all stitches. Repeat these two rows for four inches, then knit five, work a row of hemstitching, knitting last five stitches, knit five ribs, bind off. Crochet a cord and run it in and out of the sweater under the collar, make tassels for the ends to hang down in front, at bottom of V-neck.

**Tomorrow—Canning Asparagus by Steam Pressure.**

All inquiries addressed to Miss Kirkman in care of "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use FOR full name, street number, and the name of your city and state.—The Editor.

## Chats On Beauty

By EDNA KENT FORBES

### FIGURES

If you have a good figure, keep it always, and if you have a bad one, train it into shape—a good shape, that is. If you are fat dieting is easy if only you are determined enough. If you are thin, be still more determined and more careful, you will have to over-eat scientifically, without getting indigestion, which is much more difficult than not eating enough. But it can be done, even though you work hard and burn out a lot of fat in nervous energy. Exercise and wear good corsets, until your figure is good enough and strong enough not to need corsets at all. Even so, you will probably have to wear a gar-

ter belt, until someone invents a silk stocking with a ribbed top, like children's socks, guaranteed to stay up and stay smooth above a round garter.

We'll discuss exercise another day; today let's think of corsets. The heavy, ribbed affairs are of the past, the straight front, the long disappeared from fashionable shops, the new corset is mostly silk elastic, shaped to cling to the figure, boned back and front where the stiffening supports the figure and holds the corset in shape and in place. Fat figures do not. Wide, flat figures need something to hold in the waist a bit, but most women need corseting only around the hips. The day of the tight-waisted corsets is so far past that even lacing in a new model will not confine the waistline too much for health. We're in danger of letting flabby flesh accumulate here, and some day, when styles change, a lot of us will do some strenuous reducing.

**Spanish Blonde**—Dark lashes and brows are very attractive with golden hair, so you should not touch them at all with any bleach. For a dry skin use a cleansing cream on the face before washing it, and if the skin feels drawn after the washing, massage in-

## Personal Notes

Phone Personals to Social Department, Glendale 4000

Mr. and Mrs. Curtis M. Tuller, who have been making their home on Riverdale drive for several months, moved last week to Hollywood to reside. Mr. Tuller is a salesman for the Standard.

Mr. and Mrs. William Stone, Mr. and Mrs. S. A. Kootz, are to leave late this week for an outing of several days at Hodges lake, San Diego county. They will also visit Murray lake at El Cajon.

Mrs. P. J. Erickson of 3723 Revere avenue visited with relatives in Pasadena Monday.

Mr. and Mrs. Charles Irvine of Cincinnati, Ohio, were guests last night of Mrs. Grace Chobe of 342 West Maple street. Mr. and Mrs. Irvine have been spending the winter in Los Angeles and are leaving Monday for their home.

By Southland News Service.

LOS ANGELES, April 30.—W. R. Pierce, senior vice-president of the Los Angeles traffic commission, was elected to fill the vacancy caused by the recent resignation of Paul G. Hoffman. Harry Lord, president of the Motor Car Dealers' association, was elected to fill Pierce's former position.

George D. Althoff, Bolivian consul, has advised all who contemplate investing in lands in Bolivia not to overlook the fact that there are in the most important cities of the United States consular representatives established by the Bolivian government, who will gladly furnish all necessary information. Althoff states that recent newspaper accounts of investors who found certain lands in Bolivia did not come up to their expectations led him to issue the warning.

Big Rock Creek canyon, a favorite trout fishing locality of the Southland, will not be opened to fishermen when the season opens next week, according to an announcement today by County Game Warden Flintham. The warden says that the road into the canyon has been closed for repairs and a fence erected across it so that the public can not enter.

Elmer C. Hoffman, a policeman, yesterday was accused of hitting his wife, Eula, on the head with the butt of his service pistol in a complaint issued by Deputy District Attorney Francis. Hoffman is in the county jail.

Several alleged victims of former Justice Alvin Floyd of Culver City while he was on the bench filed into Superior Judge Crab's court where Floyd is on trial for alleged embezzlement and falsifying of public records, and testified that they had paid fines as speeders for which they received no receipt. One of the witnesses, H. F. Hickel of Hollywood, testified that he not only was compelled to pay a fine of \$250 but was held in jail all night and his automobile looted. Floyd is alleged to have put the fines in his own pocket.

### Philathea Party

Philatheas of Central Christian church were entertained at a springtime party last night at the home of Miss Madeline Montgomery, 918 East Garfield street. The hostess was assisted by her mother, Mrs. C. H. Montgomery, and Miss Gwendolyn Chamberlain. Spring flowers were used in decoration.

A feature was a bright Maypole, which was wound by the six initiates, Marie Johnson, Eleanor Carpenter, Marian Pruden, Frances Ferguson, Gwendolyn Chamberlain, Thelma Lewis. During the evening plans were made for the annual "Mothers' Day" breakfast, at 7 o'clock, Sunday, May 10, at the church.

There were present last night: Helen Danforth, Lillian Danforth, Marian Pruden, Eleanor Carpenter, Hazel Woodhouse, Katherine Roach, Florence Cowley, Mabel Graham, Ruth Harris, Helen Bulette, Thelma Lewis, Ramona Ryan, Eula Stevenson, Ruth Rowley, Mary Alexander, Frances Ferguson, Marie Johnson, Gwendolyn Chamberlain, Ruth Ryan, Mrs. R. C. Logan, class teacher, and Mrs. Jessie Stross.

### Glendale Singer

Miss Elizabeth Mottern of 211 North Adams street appeared in a group of songs at Santa Monica Bay Women's club meeting Monday afternoon singing Czechoslovak songs in costumes. She sang "Play Oh Gypsy," "Marishka," and "Wake Thee Now Dearest" (Deems Taylor) and in another group sang "The Broken Vase" (Arensky); "My Soul Is Like a Garden Close" (Barrell) and "Life" (Curran). Miss Melba Parks of Los Angeles was accompanist. Miss Mottern sang "Be of Good Comfort," from the oratorio "Ruth," Sunday night at the Santa Monica Presbyterian church service, and Tuesday and Wednesday mornings sang during chapel service at University of Southern California.

### Electa Program

Initiation ceremonies of "The Daughters of Olympia" will be the entertainment feature presented Saturday night at the meeting of Glendale chapter, O. E. S., by members of the Electa Auxiliary. The meeting will be in the Masonic temple, South Brand boulevard, with Mrs. Nellie C. Jennings, worthy matron, presiding. After a short business session she will turn the gavel over to the presiding officer of "The Daughters of Olympia." It is announced that anyone having Masonic affiliations will be eligible for initiation, upon payment of a fee of twenty-five cents, which provides for membership and refreshments.

### Visit Sanitarium

Several members of Lester Meyer chapter, American War Mothers, of Glendale, including Mesdames Laura E. Rupp, Ruth Clouse, Grace Dreyer and Clouse, motored to Olive View sanitarium, near San Fernando, yesterday afternoon. They took sandwiches and doughnuts for the ex-service men at the sanitarium and also several shrubs for ex-service men at Tuljuna.

### Auxiliary Meets

The Women's Auxiliary of Glendale American Legion post is to meet at 7:30 o'clock Friday night in the bungalow at Central Christian church. Routine business will be considered and a report will be given of the county council held today in Los Angeles. Mrs. E. W. Gilliland, president, will preside.

## MOVIE CITY LADS DEFEAT GLENDALE

**Dynamiters Drop Game As  
Hollywood Hitters Get  
Busy With Willow**

In a six-inning game featured with heavy willow work, the Hollywood ball-tossers cleaned the local pelota crew on the Movie City lot yesterday, 10-6. Jensen, who was on the mound for Glendale, walked entirely too many men and allowed nine hits in six innings. Johnson, twirling for the Cinema nine, allowed eight hits in five innings but was saved from defeat by few errors and many bingles on the part of his team-mates.

The winners took the lead in the first with two hits which accounted for one marker. Although the Dynamiters tied the score in the first of the second on two singles by Muff and Doll, the Hollywood men again went to the front with two counters, made on a hit, an error, and a pass.

The Dynamiters held the lead for the only time in the game when they started blasting in earnest and chalked up four hits and five runs for the fifth inning. Stewart led off with a single. Jensen went to first in a vain attempt to retire "Stew" at second. Lovell fled to left but the bases were loaded when Thompson was safe at first on Schroeder's miscalculation. Stewart and "Hull" came home when Smith singled to right. The latter went to second when Honby muffed Johnson's throw in an effort to catch the Red and Black outfielder napping off of first sack. Muff was safe at first on a fielder's choice, which killed Smith at third. Beggs walked and both runners advanced a base on Clark's single and scored when Doll singled to center.

**Score Again Tied**  
The Shells knocked the score in the next half when a single, a double, a pass and a boot went for three markers. In the last inning, the sixth, the Hollywood men scored four more which clinched the game for them.

Honby was the batting star of the day, slugging out a double and a homer in three trips to the plate, and as well scoring three runs for his team. Mears of Hollywood got two safe raps out of four journeys to the bucket. Clark and Doll each rapped two singles in three times up.

Brier started the game for Hollywood, but after pitching hitless ball the first inning he was substituted by Johnson, who allowed many hits during his five innings. "Hull" Jensen of Glendale walked nine and fanned but two.

## JOHN B. FOSTER'S VIEWS

Special Correspondent of The Glendale Evening News, Copyright, 1925.

NEW YORK, April 30.—Arthur Fletcher, the boss of the Philadelphia Nationals, concedes that he hasn't a look-in on the championship this season, but he does believe that when his club settles down it can win ten more games than it did in 1924, which is considerable of an achievement for one year in the National league.

Ten more games in the win column would put the Phillies not lower than sixth place and if they finished sixth that would mean some other team would have to accept a lower place in the standings. The question also rises, who is going to get hit in the neck while this is going on?

Suppose the Phillies took the big bite out of Brooklyn. Last year they won only five games from Brooklyn all season. That was one of the reasons why Brooklyn did so well in the race. This year the Phils already have won three games from Brooklyn and there are fifteen games between the two clubs yet to come.

The series between New York and Philadelphia is only started but the Giants have the same contempt for the Phillies that a great Dane has for a Pom, and perhaps the Quakers will be unable to gain much on the team which dearly loves to beat the weaker brother.

But if the Phils should show a determined resistance to New York as well as Brooklyn and capture some of those ten games from the Giants, it would have its effect on the pennant race. The Philadelphia outfield is a better field than the Phils had last season. It is a surer, safer, more scientific outfield. Of course, that would help any team, but it will particularly help the Phils who have played the ball off the fences a lot because of the irregular shape of their ball park.

The infield is better too, with Fonseca in it, than it was before. Fonseca, the only Portuguese in the big show, is a good player. He can hit, which is rather unusual with men of Latin blood. They have never learned to swing a bat properly in most cases.

If Fonseca can prop the Phils' infield batting average about four or five points, he will have earned all they pay him. Cincinnati let Fonseca go because he was too slow and because Jack Hendricks thought he had gone about as far as he could. Then, too, Hendricks wished to retain Drossen, of St. Paul.

Hubbell and Decatur were swapped pitcher for pitcher by Fonseca in it, than it was before. Fonseca, the only Portuguese in the big show, is a good player. He can hit, which is rather unusual with men of Latin blood. They have never learned to swing a bat properly in most cases.

Robby thinks he can make a pitcher out of him as he has made pitchers out of other backward young men. Decatur may get along with Philadelphia, and if he doesn't pick up there are plenty of minors that will take him.

## TODAY'S GAMES

**COAST LEAGUE**  
Los Angeles and Sacramento at Washington park.  
Vernon at Portland.  
Salt Lake at San Francisco.  
Oakland at Seattle.

**NATIONAL LEAGUE**  
Boston at Philadelphia.  
Brooklyn at New York.  
Cincinnati at Pittsburgh.  
Chicago at St. Louis.

**AMERICAN LEAGUE**  
St. Louis at Chicago.  
Detroit at Cleveland.  
Philadelphia at Washington.  
New York at Boston.

## LONG PUTT FATAL

VICTORIA, B. C., April 30.—Excitement following a long putt on the first green of the Uplands Golf links was today given as the cause of death of John Savannah, local photographer.

Savannah collapsed a few seconds after he sunk his putt.

## Raising Him to Be Pitcher

If GEORGE BLAEHOLDER, young St. Louis Brown pitcher, delivers the goods for his team this year he can thank JIMMY AUSTIN. The old third baseman of the Browns discovered George, signed him, carted him to the spring camp a couple of years ago, and has been directing his destiny ever since.

GEORGE BLAEHOLDER and JIMMY AUSTIN

## FRY'S PHYSICAL FACTS

By PROF. BYRON G. FRY,  
Health Expert and Champion Bag  
Puncher of America.  
Written For The Evening News  
XVI—Right Blood Pressure

High blood pressure is simply an increase of the pressure of the blood in the arteries and smaller vessels. The increase may be anywhere from two or three points to one hundred points or even more. A blood pressure of over 200 is dangerous, although an increase over normal is undesirable.

At first an increase in the blood pressure acts as a powerful stimulant, often leading to an unnatural exhilaration. However, the gradually increasing pressure overstrains the arteries and gradually brings about their degeneration. It also overworks the heart, leading to degeneration of the heart muscles. Likewise it brings about more or less degeneration of the kidneys. High blood pressure is particularly fatal in the presence of this disease.

There are four fatal terminations of high blood pressure. One is apoplexy or rupture of a degenerated vessel in the brain. While the first attack is not always fatal, unless something is done at once to lower the pressure and keep it lowered the second attack in a year or two usually terminates life.

The second result of high blood pressure is heart failure due to heart overwork in maintaining the excessively high pressure. At post mortems following sudden death from blood pressure, the heart walls are found actually torn apart as a result of a degeneration of the muscle fibers and the tremendous pressure exerted against them. Bright's disease, or degeneration of the kidneys is another frequent result of high blood pressure and the factors which cause it. Many cases of obscure disease in persons past fifty are also due to the degeneration of the arteries caused by excessive blood pressure.

High blood pressure is due to toxins circulating in the blood. These toxins affect the nerves controlling the millions of the smallest of the blood vessels so as to cause a constant contraction of these vessels, in this way the blood is obliged to increase the blood pressure in order to force the blood through the narrowed vessels.

Tomorrow—Cause and Effect

Japan has subsidized the dye industry.

While the first team was losing to the Hollywood gang the Glendale yannigans trimmed Burbank's best here, 6 to 2. Bert Foster officiated the first five innings on the mound for the local second nine, while Brooks finished the game. The locals collected nine hits to the Potato Pickers' three. The score by innings:

	1	2	3	4	5	6	7	8	9	T
Burbank	0	0	0	1	1	0	0	0	2	
Hits	0	0	0	1	1	0	0	0	2	
Glendale	0	0	2	0	0	0	4	x	6	
Hits	0	1	1	1	0	5	x	9

## CHAMP TO FIGHT ABROAD, REPORT

**Dempsey May Accept Offers  
In European Circles,  
Broadway Hears**

By DAVIS J. WALSH  
For International News Service.  
NEW YORK, April 30.—Jack Dempsey today was on the point of acceptance of several flattering offers to appear in Europe against the best opponents available, according to a statement made to the writer by Roy Benton, old-time boxing critic and present megaphone man for the heavyweight champion.

Just who the opponent in question might be—Firro, Carpenter, Paulino, the basque wood-chopper—and the source of the offers, Benton said he was not at liberty to disclose, the Dempseys having taken a temporary run out of the big town to visit Estelle's parents at Wilmington, Del.

"Jack will accept just as soon as he returns," Benton declared. "These offers are too good to turn down. And, take my word for it, they are legitimate."

**Same Old Line**  
The statement was made almost simultaneously with the printed declaration of a local fight expert revamping that good old sweet refrain about Dempsey being out of the ring for good. This did not add up, however, with the fact that the champion today received delivery on his personal order of a full line of boxing equipment from a local sports goods house. It will be stowed aboard the boat on which the Dempseys will sail on Wednesday.

This would seem to indicate that the champion means to keep faith with the public. So, also, does the fact that he plans to box abroad, although it is extremely unlikely that Firpo will be selected as a collaborator. Carpenter and Paulino are much more plausible opponents because they would not draw here. Firpo is still an American possibility and as such, will be ignored.

**May Meet Wills**  
Meantime, according to Benton, the champion will hold himself in readiness to return immediately at the cable insistence of Jack Kearns who will remain behind and smoke up a real championship match. This, it is now quite evident, can be with none other than Harry Wills, the colored man in the pugilistic woodpile.

That Wills may yet get his chance is indicated by Dempsey's present European program. The warm-up bouts in question are near the champion needs after nearly two years of ring idleness.

This is one reason Dempsey admitted to the writer recently why Kearns did not accept the Wills challenge. The septa tinted specimen it seems, looks a trifle too tough to take on without a bit of target practice.

## YESTERDAY'S RESULTS

**COAST LEAGUE**  
Sacramento, 7; Los Angeles, 3.  
Portland, 4; Vernon, 3. (Twelve innings.)  
San Francisco, 15; Salt Lake, 4.

## Famous Grid Captain for U. C. Is Dead

BERKELEY, April 30.—Lloyd "Wreck" Womble, famous University of California football captain in 1901 and an internationally recognized mining engineer, is dead in Switzerland, according to a cablegram received today by the University of California.

## SPORT CHATTER

(A recent statement by an English sport authority that the game of golf has been more or less responsible for the deterioration of interest and proficiency in the more strenuous sports in the British Isles, has aroused considerable discussion among golfers in the United States. Jack Hutchison is one of the foremost authorities on golf in this country and, in response to a request for his views on the subject, he has written the following.)

By JACK HUTCHISON  
(Former Open Golf Champion of the United States and Great Britain.)  
Special Correspondent of The Glendale Evening News, Copyright, 1925.

CHICAGO, April 30.—Perhaps golf has, to a certain degree, been responsible for the deterioration of the more strenuous sports in Great Britain. To my mind, however, there are other more vital reasons for this slump. It should be remembered that the young men of that country who would normally have been in their athletic prime at the present time gave a lot of their vitality and stamina to their country between the years 1914-18, and upon resuming civil life found golf better suited to them than the other sports which call for strength, vitality and endurance.

The present day younger generation of Great Britain (by that, I mean those who were boys during the war) have not had the opportunity to develop their athletic inclinations. They are too busy doing their share helping the country become re-established on its former basis of business to devote time to keeping themselves in the perfect physical condition called for in first class athletic performance.

Golf, to those who have the time means inclination and opportunity to properly train themselves for participation in track athletics, has generally been considered an aid rather than a detriment and I really cannot say that I believe golf in itself to be responsible for the present slump in the more vigorous British athletics.

Perhaps the youth of the old country are losing their desire to excel in other games than golf, but I do not like to think so. They are, in my opinion, only awaiting the swing of the pendulum when changed conditions will again revive public interest, support and encouragement in the games of skill, strength and human endurance which have always had their own individual appeal to the sporting instincts of men. Golf does not take the place of such games as those nor do I believe it to be a cause of deterioration in them. It may be an accessory after the fact. Not the fact itself.

## BOWLING SCORES

The Gateways surprised bowling fans last night by taking two out of three games in the City league match with the Brown Drug team. The second and deciding game went to the marketmen by ten pins. Neustadt of the losers rolled high score of 222. The scores:

Players	GATEWAYS	BROWN DRUG CO.
Settle	176	213
Barick	219	181
Conston	163	151
Pauls	167	145
Holmes	202	189
<b>Totals</b>	<b>929</b>	<b>916</b>

**PLAYERS**  
H. F. Moore, 184  
H. F. Moore, 149  
Miliza, 139  
Neustadt, 222  
McCoy, 144  
Brown, 163

**Totals**  
834  
906  
905

Boston, 2; L. Pct. 167.

## TIGERS BREAK SPELL

The Tigers broke the spell, after losing seven straight, and clubbed their way to an 11 to 5 decision over the Browns. George Sisler, the well-known blind man, got three hits, carrying his streak to fifteen consecutive games.

## BRAVES RUN WILD

There was very little kidding around by Jesse Barnes as he bore down on the Dodgers and pitched the Braves to a 10 to 3 victory.

# WELLER WILL BE SPEAKER MONDAY

Glendale Republican Club To Hear Assemblyman At Its Meeting

Assemblyman Frank C. Weller of Glendale will be the principal speaker at the meeting of the Glendale Republican club next Monday night at the Wilson Intermediate school, President R. S. Person announced today. Assemblyman Weller will speak on the work of the state legislature, which adjourned last week.

Elsie Forsythe, oratorical contest winner in the Glendale Union High school, will give the essay that won her first place in the local competition. President Person will discuss the political situation in the Ninth congressional district.

The meeting will be held in the auditorium of the Wilson Intermediate school, starting at 8 o'clock. President Person announced. The meeting will be open to the general public, he said.

## United States Industry Prosperous, Is Report

(Continued from page 1)

of the big construction program, together with the movement of the spring crops should be a reflection in better business for the transportation systems of the country.

Get Good Wages  
 With the bulk of labor satisfactorily employed at good wages and the financial and manufacturing interests co-operating to increase the industrial program, we can safely anticipate a real healthy growth in production and employment in the country at large.

The American workman is interested vitally in the progress and prosperity of the country. He is entirely in accord with policies and principles upon which the nation is established. He realizes the fact that his welfare is dependent upon profitable and productive enterprise and he is sincerely co-operating with the employer in this endeavor.

Of course there are always in evidence a few individuals whose wages are not the ways of the vast majority of our wage earners. In some localities there are organizations influenced by anti-American radicals, the leaders of which contribute nothing toward the advancement of American ideals.

Promising Outlook  
 The leaders and members of these societies advocate discontent, dissatisfaction and opposition to our form of government. But very few of our working people are ever swayed by these exponents of a false philosophy. In this itself is a high tribute to intelligence and stability of American labor.

All in all, the industrial outlook is promising. We have reason to complain of things as they are and we have every reason to expect them to become better.

## DEATHS-FUNERALS

**JAMES WYVELL**  
 Funeral services for James Wyvell of 1215 North Brand boulevard and resident of Glendale for the past eighteen years, who passed away Sunday, April 26, 1923, were held yesterday afternoon at 2 o'clock in the chapel of the Jewell City Undertaking Co., 127 North Orange street. Interment was made in the new mausoleum at Grand View Memorial park.

Glendale commandery, No. 56, Knights Templar, of which the deceased was a member, and Rev. C. M. Calderwood, pastor of Congregational church, conducted the service. The Mr. Wyvell was a member of Union Lodge No. 268, F. & A. M., Glendale; Royal Arch Masons, Glendale; Knights Commandery, No. 56, Knights Templar; Omar Shrine, No. 9, White Shrine of Jerusalem; and was past patron of Glen Eyrle, No. 237, Order of Eastern Star, Glendale. All orders were represented at the service and the number of Knights Templar attending the service was said to be the largest known in Glendale.

The floral offerings were many and beautiful, being banked on and around the casket. Among some of the most beautiful were: Floral and vacant chair from past patrons and patrons of Glen Eyrle, No. 237, Order of Eastern Star; floral and broken column from officers of Glen Eyrle, No. 237, Order of Eastern Star; 1925; floral cross and crown from Glendale commandery No. 56, Knights Templar; floral cross and shepherd's crook, Omar Shrine No. 9, White Shrine of Jerusalem; floral Bible on standard and floral pillow from Glen Eyrle Social club.

**JAMES F. SANKEY**  
 James F. Sankey died this morning, Thursday, April 30, 1923, at 800 East Harvard street, at the age of 66 years. He had lived in California seven years, a year of which had been spent in Glendale. Surviving him are his widow, Mrs. Mary Ida Sankey; two brothers and a sister, William and Matthew Sankey and Anna Pitzer of Newcastle, Pa.; a son Harry S. Sankey of Glendale; and a daughter Nellie J. Matthews of Los Angeles. Funeral services will be held at 10 o'clock Saturday morning in the chapel of Kiefer & Eyerich, East Broadway. Interment will take place in Inglewood cemetery.

# Find \$16,000 In Cabin of Shipwrecker

RENO, Nev., April 30.—The sum of \$16,000 in gold and currency was found today in the bed of Juan Barandegui, a Basque shipwrecker, who died last night in his cabin near Pyramid lake.

Barandegui, who was 62 years old, has relatives in St. Michel, France, it was said.

## CONGRESSMEN REPORT ON MIMIC WAR

Solons With Fleet Declare Hawaii Forms Key To America's Defense

HONOLULU, April 30.—Members of Congress who accompanied the United States fleet here for the great maneuvers, declared today Hawaii was the key to America's defense.

Congressmen, members of the department of interior, appropriations and rivers and harbors committees stressed the importance of Hawaii in defense plans, following a visit to Pearl harbor and a trip over the naval base, where all defenses were viewed.

Lineberger Opines  
 Congressman Walter Lineberger of California declared the development of Hawaiian harbors was of the utmost importance.

Congressman Burton L. French of Idaho said he considered Pearl harbor one of America's most important bases and that security of America from Alaska to the Panama canal was dependent on Hawaii.

Thousands of sailors fill Honolulu. They are enjoying the elaborate program arranged for their entertainment, while officers of the fleet are waiting for the opening of the critique tomorrow.

## ROTARIANS HERE ARE GRANDDADS

Van Nuys Club Claimed as Grandson; New Officers Now In Charge

Induction of new officers and announcement that the Glendale club has become a "grand daddy" featured today's luncheon meeting of Rotarians at the Tuesday Afternoon clubhouse.

Dr. J. S. Van Meter of Burbank, president of the Van Nuys club, organized to meet at the Country club each Wednesday. It is the "grandson," having been organized by Burbank, which was organized by Glendale two years ago.

Sympathy of the club was expressed for William A. Howe, whose wife passed away yesterday, and Dan Kelly, who lost his father by death. Committees on resolutions were named and members of the club will attend Mrs. Howe's funeral at the Little Church of the Flowers tomorrow afternoon at 2 o'clock.

The annual report of the secretary was presented by Rene Olin, who told of Glendale Rotarians scoring 98 per cent in attendance during the past year. Thirty per cent of the members have been 100 per cent in attendance for two years and 44 per cent for the past year. A good financial condition also was remarked upon by the secretary.

Stillman Takes Office  
 In giving up the gavel to Paul Stillman, newly elected president, J. Herbert Smith, retiring executive, declared that his experience in Rotary "has been a spiritual unfoldment in the consciousness of man."

In addition to President Stillman, other newly elected officers were officially installed. Willis Lusby being the treasurer and Art Hutchinson, secretary. Directors are Richardson D. White, Ed Nisler and Charles Wiley.

George Karr presented a diamond studded Rotary pin to the retiring president and a ring was presented by Mrs. Smith to her husband through President Stillman.

Mothers of Rotarians will be honored guests next Thursday, Charles Fawkes being in charge of the program.

List of Visitors  
 Visiting Rotarians enjoying the Glendale club's hospitality today included Charles A. Gunn, Shanghai, China; Fred Anderson, Stillwater, Minn.; J. S. Van Meter, Burbank; Sam Johnston, Fred Ortman, Gregg Layne, Charles C. Gates and E. F. Twomey, Los Angeles.

Henry James, Pasadena, editorial writer, was introduced as speaker of the day. He commented on the large number of murders, the defiance of the prohibition law and other topics of the day.

## POLICE HUNT CONVICTS

SAN FRANCISCO, April 30.—Police in the San Francisco bay region opened a drive today to capture Joe Tanko and Floyd Hail, escaped San Quentin murderers, who were found dead and sighted in this vicinity, following their reign of terror in Sacramento and environs.

# QUIT C. OF C. IN WAR OVER FIREWORKS

Resignations Of Protest Cause President Smith To Issue Denial

With a stack of resignations reposing on the desk of Secretary Howard L. Wood, the Chamber of Commerce, through D. H. Smith, president, today issued a strenuous denial that the chamber had anything to do with the proposed new fireworks ordinance pending before the City Council.

The avalanche of resignations that descended upon the chamber executive offices this morning were those of Glendale druggists who are warring against passage of the ordinance which would prohibit the sale of fireworks in the city. In their letters of withdrawal from Chamber of Commerce membership, the druggists blame the chamber for instigating the move for the new ordinance and severely censure the organization for its alleged action.

Issues Denial  
 "The Chamber of Commerce has had absolutely nothing to do with the proposal that sale of fireworks be barred from Glendale. The directors of the chamber knew nothing of the move until they read about it in the newspapers. The matter has never been discussed by the board and no action of the chamber has had authorization of any kind to express the sentiments of our organization in the matter," President Smith said.

"It is true that Percy J. Hayselden, a member of the chamber, and chairman of our fire and flood control committee, first urged passage of such an ordinance before the City Council. But Mr. Hayselden acted in his capacity as head of the local division of the Associated Fireworks Association, an organization that is now striving to have anti-fireworks ordinances passed in every city. He in no way represented the Chamber of Commerce in the matter as I believe the records of the City Council will clearly show."

Resign by Phone  
 Resignation of more than half a dozen druggists from the Chamber of Commerce greeted Secretary Wood upon his return from the state convention of secretaries at Eureka, this morning.

"Add my name to the list you already have," was the telephone message given at the chamber offices by several of the irate druggists who claim that they have already bought thousands of dollars' worth of fireworks in anticipation of the Fourth of July and that they will be put to tremendous loss should the ordinance prohibiting the sale of fireworks succeed in passing the City Council. The ordinance was introduced at the session of the council yesterday by Councilman W. F. Tower.

Merchants Oppose Ban On Sale Of Fireworks  
 Opposing the passage of an ordinance now pending before the City Council that would prohibit sale of fireworks in Glendale after June 5, a resolution adopted by the board of directors of the Glendale Merchants' association was presented today to the council and ordered filed.

Hearing on the ordinance is scheduled for next Tuesday morning. The resolution will be considered at that time.

The association, however, does not oppose passage of such an ordinance if introduced after July Fourth, when stocks now on hand or ordered will have been disposed of, according to the resolution. It "recommends that the ordinance be not passed this year, so that merchants can clear their stocks, but the association is not opposed to the ordinance if brought up later."

## Two Mexican Children Killed In Hail Storm

SAN MARCOS, Texas, April 30.—Two Mexican children, 12 and 14 years old, were killed and twenty-five Mexicans injured in the wind and hail storm which swept Kyle, Texas, late Tuesday. Twenty of the injured Mexicans are being cared for by local hospitals. Property damage was estimated at \$100,000.

## Jury Selected To Try Girl Killer Of Lover

NEW HAVEN, Conn., April 30.—The jury which will judge Olympia Macri, 18-year-old singer, for the killing of John "Sheik" Bagnano, alleged father of her baby, was completed today before Judge C. L. Avery in superior court. A record for length of time in selecting a murder jury was established in Connecticut jurisprudence.

## PLAN DEATH PROBE

HANFORD, Cal., April 30.—Hearings of the four persons held in connection with the mysterious death of Lee Camp, wealthy rancher, may open here next week, it was stated today by county officers. John Tipton, uncle of Mrs. W. Stanton Brown, who is held with her nephew, Robert McCamish and Fred Mills, former man of the "ranch of regrets" where Camp was found dead, was sighted in this vicinity, following their reign of terror in Sacramento and environs.

# ORDINANCE ON FIRE HAZARD IS SOUGHT

Chief Lankford Asks Law To Prohibit Storage Of Benzine In City

An ordinance prohibiting the storage of benzine in amounts of more than fifty gallons except in underground tanks was ordered drafted today by the City Council, after Fire Chief A. H. Lankford had presented a communication in which he declared that fire hazards were excessive at certain cleaning and dyeing plants at the present time.

The measure will be presented to the council at its next meeting and will be drawn as an emergency ordinance. Such a measure was recommended by representatives of the National Board of Fire Underwriters who recently completed a survey of the city.

Chief Lankford also recommended that the ordinance require fireproof automatic doors and fireproof washers. The fifty-gallon limit will include all benzine in washers.

Appointments Made  
 Mayor H. G. MacBain today appointed Councilman W. F. Tower to be chairman of the public service committee; Councilman S. C. Kinch chairman of the public works committee; Councilman C. E. Kimlin head of the public health committee and MacBain chairman of the general government committee.

The council approved subletting of the contract awarded J. G. Donovan for the installation of section No. 6 of the intercepting sewer system to Frank C. Butterfield.

The city engineer and city attorney were instructed to draft the necessary proceedings for placing Kenilworth avenue from Hahne to Arden avenues in the commercial zone. Petition for improvement of Thompson avenue was approved.

Command Officers  
 A formal resolution commending Officers A. E. Condy and E. L. Ames for their work in capturing two alleged bandits who had held up and robbed the Ever Reddy service station last week, was passed. The resolution follows: "Be it resolved by the council of the city of Glendale that:

"Whereas, the council of the city of Glendale believes that public recognition should be given where officers of the police department show exceptional vigilance and bravery;

"Whereas, Officers Condy and Ames did, by their prompt and efficient work on the night of April 22, apprehend two hold-up men in a manner that is deserving of such public recognition;

"Now, therefore, the council of the city of Glendale hereby commends Officers Condy and Ames for their credit to the Glendale police department, and to the city of Glendale, and directs that a copy of this resolution be spread on the official minutes, a copy be furnished each of the local newspapers, and a copy be furnished to each of these officers."

## Glendale Youngster Celebrates Birthday

Maxine Gulley's eighth birthday was celebrated Tuesday afternoon at the home of her parents, Mr. and Mrs. C. H. Gulley, 335 West Ivy street. Games, dances and luncheon were enjoyed. Those present were: Lottie Pearce, Doris Havermale, Marian Faulner, Lorraine Douglas, Lucile Collins, Eleanor Marek, Dorothy Furbeck, Pauline Dayton, Helen Miles, Patricia Gulley, Betty Ann Bolen and Maxine Gulley.

## 'Summer White House' Sits In Rum Scandal

BOSTON, April 30.—Alleged rum running activities at Little's Point, on which is located the "Summer White House" came to a climax today when the local board of selectmen notified Chief of Police Quinn that they contemplated removing him from office.

## PRISON SENTENCE

LOS ANGELES, April 30.—Convicted of a conspiracy to violate the national bankruptcy laws, Nicolas Sullivan and John Hennessey, former officials of the Central Motor Sales Co., which operated here in 1920, were sentenced today to serve fifteen months each in the federal prison at Leavenworth.

## Cult Members Watch Dead Man 'Trance'

LOS ANGELES, April 30.—How members of a cult watched the body of a dead man for three days, thinking he was in a trance, was revealed today.

"For three days I'll be in a trance, so don't disturb me," said David Lanfear, 70. At the end of the third day, when Lanfear showed no signs of emerging from the supposed coma, physicians were called and declared Lanfear, who was still sitting in a chair, dead.

## San Quentin Convict Killed In Jail Riot

SAN QUENTIN, Cal., April 30.—Fighting broke out again in San Quentin penitentiary here today when Lawrence Mahach, 26, Indian convict, was stabbed to death by A. Gomez, 24, a Mexican, who was in turn, shot and seriously wounded by guard. Mahach was carried to the prison hospital, where he died. Gomez was expected to recover. The fight took place in the yard of the prison jute mill. Three shots were fired by a guard during the disturbance, one striking Gomez.

## NEW YORK CLOSING

By W. & COUSINS  
 For International News Service

NEW YORK, April 30.—Stocks displayed a reactionary tone in most of today's active session. Finding poor support for pool stocks and an indifferent speculative public, the bears opened up heavy selling pressure on the industrial leaders. Losses varied from 10 points in Cast Iron Pipe to 1 point in United States Steel and Baldwin.

Not all of the principal stocks followed the downward course. Southern railroad continued the advance inaugurated in the early part of the week and sold at a new 1925 high, at 92 1/2, principally on execution of an increase of the dividends on the common stock from 5 to 6 per cent.

The advance of 2 points in electric power and light certificates was followed by a gain of 10 points in Utah Securities, which sold at \$1.02, compared to

## LIONS' CLUB ROARS WAY TO VICTORY

Service Club Competitions  
Feature Eisteddfod  
Meeting Here

(Continued from page 8)

by Miss Hughey. The judges announced \$4.6 per cent for Wilson and \$4.3 per cent for Glendale Intermediate.

In the boys' competitions the score stood: Wilson Intermediate, \$9.6 per cent; Glendale Intermediate, 88 per cent. Both groups sang "Tinker Song" by DeKoven and "Gypsy Trail" by Galloway. The boys were led by Mrs. Kent and Miss Hughey.

**Judges of Contests**  
Judges of the contests last night were: Ben F. Pearson, president of the California Eisteddfod association; A. J. Gantvoort, composer and noted for his public school music study works; W. R. Berry, president of the Orpheus club of Los Angeles; and Alexander Stewart, secretary of the California Eisteddfod.

Mrs. C. E. Hutchinson presided over the elementary school contests, turning the gavel over to A. L. Baird during the service club competitions. The reception committee was headed by Mrs. George Lyons who was assisted by Mrs. Harry G. MacBain, Mrs. A. L. Baird, Mrs. Paul Stillman and O. E. Andresen. Mrs. Daniel Campbell was chairman of the judges' reception committee.

**Violin Contests**  
Results of violin competitions held yesterday afternoon at the Van Grove studios follow:

Open group—Christine Edwards, 84 per cent; Christine Krum, 82.3 per cent; W. F. Brower, 68.3 per cent.

Primary group—Mary Ann Fleming, 79.3 per cent; Helen Ziegler, 73.6 per cent; Leo Rattigan, 69.6 per cent; Eleanor Patricia Demmert, 53.6 per cent. Joe L. Cascales gave an exhibition number in grade B.

Judges of the violin contests were Henry Schoenfeld, director of the Los Angeles Women's symphony; Robert M. Staples, noted violin technician and Arthur M. Perry, department of music, University of Southern California.

## Chinaman's Savings of Years Burned In Hut

DUTCH FLAT, Cal., April 30.—The savings of several decades disappeared in smoke today when the cabin of Ah Han, aged Chinaman, caught fire.

Ah Han is held in affectionate esteem by the residents of this district and since the early days has pursued his vocation of washing over the old placers. His receipts he treasured in paper bills. The Oriental upset a lamp and the flames drove him out of his cabin and reduced his savings to ashes.

## U. S. Forest Service to Improve State Roads

SAN FRANCISCO, April 30.—Highway projects costing \$500,000 will be undertaken in California during 1926 by the United States forest service according to Paul G. Radington, district forester. In addition to these expenditures, approximately \$300,000 will be available during 1926 for forest development roads and trails, making a total of a million dollars to be spent on forest road projects during the year.

## Japan Decides Gold Standard Is Premature

TOKIO, April 30.—Japan will not follow Great Britain in restoring a gold standard, Finance Minister Hamaguchi said today.

"Japan hopes to return to a gold basis at the earliest opportunity, but the financial condition of the country, due to the earthquake disaster and adverse trade balance makes such a step inadvisable for the present," he said.

## Lotta Crabtree Home Offered as Hospital

QUINCY, Mass., April 30.—An offer to sell the \$150,000 summer estate of the late Lotta Crabtree, on the ocean front at Squantum, has been made to the United States government as a site for the proposed government hospital for veterans suffering from nervous diseases. The offer was made by Major-General Clarence R. Edwards, one of the executors of the actress' estate.

The Crabtree estate has a frontage of one mile on the water. The new hospital is to take the place of the United States Veterans' hospital 44, at West Roxbury. The lease on the property will expire in June, 1926.

## Huge Rattler Clubbed To Death Under Home

FRESNO, April 30.—One of the largest rattlesnakes killed in recent years was clubbed to death by George E. Hynes under his house, 4872 Tulare street.

Hearing the unmistakable warning of the snake, Hynes turned his head as he approached the house, and saw the flat head of the reptile protruding from beneath the house. Dragging it out with a forked stick, Hynes killed it. The snake was over four feet in length, three inches in thickness and had eleven rattles.

## STEEL MILLS SLOW

PITTSBURGH, April 30.—There has been a decided decrease recently in steel mill operations here. The volume of buying has shown little change but old orders are running out. The rate of production in general is placed slightly below 80 per cent.

## SPORTS

### LAWRENCE PERRY SAYS

Special Correspondent of The Glendale Evening News, Copyright, 1925.

NEW YORK, April 30.—Comparison of the performances at the Penn relays in the east and the Drake relays in the middle west, gives the interior sections very much the better showing. And in several cases records turned in at Franklin Field which exceeded performances at the Drake meet went to the credit of western athletes who participated in the Philadelphia games.

Indeed, as will be shown below, there never has been so heavy a margin of advantage in favor of one section as against another as are revealed in contrasted performances at Pennsylvania and at Drake.

In winning the two mile relay event at Philadelphia, Georgetown captured a world's record, 7:42, while at Drake, the Michigan quartet turned in 7:51 4-10 in this event.

At Drake, the Texas university four mile relay outfit won in 17:58 3-10. In the east, Boston college won this race in 18:05 1-5.

Butler won the mile relay at Des Moines in 3:18 2-10 and Georgetown at Penn did 3:19. Michigan took the Drake half mile in 1:27 5-10. Pennsylvania won at Franklin Field in 1:28 1-5.

The best performance in the running broad goes to the credit of the Pennsylvania relays, the one flaw, from an eastern standpoint, being that a Butler man, Woods, made it, doing 4 feet 14 inches in the west. Graham, of Kansas, and Wallace of Illinois were tied at 22 feet 8 3/4 inches.

In the discus, Herb Schwarze, of Wisconsin, tossed the plate 146 feet 7 3/4 inches. Charles of Bowdoin at Pennsylvania tossed 133 feet 3 3/4 inches.

But at Los Angeles, Bud Houser shattered all records with the discus on Saturday, hurling the platter 156 feet, 3 3/4 inches.

Poor, of Kansas, did the high jump at Drake at 6 feet 3 inches, which was not so good as the jump, made at Pennsylvania by Russell, 6 feet 6 inches. But Russell represented the University of Chicago.

Schwarze, of Wisconsin, put the shot 47 feet 9 3/4 inches at Drake and Hills, of Princeton threw it 47 feet, 1 3/4 inches at Penn. Cox, of Oklahoma, threw the javelin 196 feet 2 inches at Des Moines and Northrup of Michigan threw the lance 193 feet, 11 3/4 inches at Penn.

In the pole vault, McKeown, of Kansas State Teachers sprang 12 feet 9 inches, while at Penn, Harrington, of Notre Dame, Bon-teccus, of Cornell and Bradley, of Princeton, were all tied at 12 feet, 6 inches.

## Negro Utopia Planned On Lake Erie Front

LORAIN, O., April 30.—An idea conceived eight years ago by Mrs. Margaret Barnes, 50, of Oberlin, Ohio, for the creation of a modern Utopia for colored people north of the Mason-Dixon line is nearing realization with the announcement by the On-Erie-Beach Co. that a summer colony will be established adjoining the Lorain Country club.

Construction of the first unit of the vast and unusual project is scheduled to start soon.

Four and a half acres of lake-front land have been purchased with the intention of building a summer home for colored working girls.

## DOCTORED ALL WINTER, FINDS RELIEF

"I doctored all winter and it didn't help a bit, but FOLEY'S HONEY & TAR COMPOUND was just the thing for my cough and cold," writes Mr. Henry Daniel, Berrysburg, Penn. FOLEY'S HONEY & TAR COMPOUND is one of the largest selling cough medicines in the world. Contains no opiates—ingredients are printed on each carton. Good for old and young. Refuse substitutes. Insist upon FOLEY'S.

Ahlmann Drug Co., So. Brand at Harvard; Glendale Pharmacy, 638 East Broadway.—Advertisement.

## Revive Reports That Club Will Be Sold

NEW YORK, April 30.—Reports of an early sale of the Brooklyn National league club to a syndicate headed by George M. Cohan and Colonel T. L. Huston, were revived today, following the successive deaths of Charles H. Ebbetts and Edward J. McKeever, president and vice-president, respectively, of the club. The death of McKeever last night left his brother, Stephen W. McKeever, the sole survivor of the three Brooklyn owners.

Cohan has been mentioned as a prospective purchaser of various big league franchises. Colonel Huston has been out of the game since disposing of his Yankee interests to Colonel Jacob Ruppert several years ago. James Gaffney, former Boston baseball magnate, and George W. Loft, owner of a chain of candy stores, were also reported as being in the market for the Brooklyn stock.

## Babe Ruth Is Showing Improvement, Report

NEW YORK, April 30.—Babe Ruth was "showing considerable improvement" again, according to an official bulletin issued today from St. Vincent's hospital, where the slinger has been confined since the start of the season with an attack of influenza and the after-effects of an operation. It was admitted, however, that Ruth had not the slightest chance of joining the Yankees at any time during their western trip, which starts May 7.

## SANDE WINS

JAMAICA, N. Y., April 30.—Earl Sande, leading jockey on the American turf, made his metropolitan debut yesterday afternoon by winning with Worthmore, the four-year-old Everglade stable colt, in the \$7,500 Paumonok handicap.

## TRACK MEET

FRESNO, April 30.—As a feature of the annual Raisin Festival in progress here the annual military and track meet of California high schools is being held today with representatives coming from as far as Riverside and Berkeley.

## KERRIGAN WINNER

LOS ANGELES, April 30.—George Kerrigan defeated Hutt Martin six up at the Rancho Country club yesterday for the Southern California professional championship.

United States is the principal buyer of Swiss watches.

## RINGSIDE GOSSIP FAIR PLAY

Special Correspondent of The Glendale Evening News, Copyright, 1925.

NEW YORK, April 30.—Wily has Jack Dempsey waxed more and more positive since he came east, that he will defend his title against any man? Go back to the day of the champion's arrival in this city and see if the answer does not appear.

When in company with his charming little bride and co-star, he stepped off the train, policemen were not needed to keep back the surging crowd that in former days assembled to greet the champion. The welcoming bunch upon this occasion consisted mainly of moving picture people, photographers and a few friends.

Dempsey must have noticed, as the writer certainly did, that the adoring public was not in evidence.

To the performer, depending upon the patronage of the public, this means a whole lot. Terms for battles are arranged upon the basis of a performer's drawing power and just as soon as the mob begins to weary of the unceasing hemming and hawing of a fighter who does not fight, even the strongest admirers grow cold.

Dempsey, of course, remembers the crowds that greeted his earlier arrivals, and no doubt felt the slight when he hit the big city the other day. His title is a serious thing with Jack and he means to keep it above else that he holds dear.

One thing is certain—if Dempsey is to appear at all this year, it will be because he senses the changed feelings of the public. If Dempsey follows his wife's wishes and goes to Europe, as he now says he will do on May 6, it will mean that he will be unavailable for a battle this year.

On the other hand, if he continues to stick around and maybe pick up a little change on the vaudeville stage, it is dollars to crullers that he will accommodate one or more challengers for his title.

## TEXAS WHEAT CROPS

HOUSTON, April 30.—Wheat crops in the Texas Panhandle have been assured by recent rains and spring crops likewise have benefited. Wheat fields in the lower plains were too far gone from drought to be saved, and now are being plowed up and seeded to cotton.

Crossword puzzles are becoming popular in India.
